SCHOOL

Courses on television offered by LCCC

If you are interested in earning college credit, but are unable to attend classes on a regular basis, a number of college courses on television will be offered this Fall by the Luzerne County Community College TeleCollege Office.

Telecourses offer the opportunity to earn college credit while learning at home, for those who are unable to enroll in traditionally scheduled courses. The courses combine television lessons, reading assignments, one or more oncampus sessions for discussion, review for exams or alternate assignments.

LCCC will offer eight telecourses on public television station WVIA-TV, Channel 44, beginning in September, as part of a nationwide Public Broadcasting Service Adult Learning Program.

Among the telecourses to be offered this Fall are "General Psychology: Discovering Psychology, which covers fundamental principles of psychology; Saturdays, from 7 to 8 a.m., beginning September 8 through December 1.

"Principles of Sociology: Focus on Society" will be shown on Sundays from 7 to 8 a.m., beginning September 9 through December 16

"Introduction to Data Processing: The New Literacy," will be broadcast on Mondays and Wednesdays, from 6 to 6:30 a.m., beginning September 10 through December 5.

"American History to 1865: The American Adventure" will be shown on Tuesdays and Thursdays, from 6 to 6:30 a.m., beginning September 11 through December 6.

"Principles of Economics I (Macro): Economics USA" will be broadcast on Fridays, from 6 to 6:30 a.m., beginning September 14 through December 14; and "Principles of Environmental Science: Race to Save the Planet," will air on Thursdays, beginning at 8 p.m., beginning October 4 through December 6.

The final two telecourses to be broadcast on WVIA-TV can help you to make good use of your video cassette recorder. The courses, "Art Appreciation: Art of the Western World" and "History of the English Language: The Story of English," will be shown from 2 to3 a.m. and

Curriculum Fair

Derek Vogel and Crystal King, Lake-Lehman Junior High School seventh grade students, examine a science project "A Study in Air Motion". The project was one of many on display at the recent Curriculum Fair at the school.

Penn State offers a bit of France to area youths

Elementary school children were introduced to French culture and language during Penn State Wilkes-Barre's Summer Youth Program Salut! To French. Conversational phrases, French cooking, games and holidays were all part of this introduction to French. Taking part in the classes were from left, Kate Walsh, 8, Westfield, NJ; Timothy Reddy, 9, Shavertown; Annette Masi, 9, Wilkes-Barre; Sue Longo,

Montessori offers reading/math camp

Wyoming Valley Montessori on the right foot in the next school concepts with manipulative mate-School will offer a special reading year," she added. and math brush-up camp Aug. 6 through 24 to help elementary school children keep hard-won skills fresh.

The three-week day camp is designed for children who are at or below grade level in reading or math. Children may enroll in reading or math camp-not both. Camp will run from 10 a.m. to noon weekdays.

"Children who have had to work the hardest to keep up with their classes often lose the most over the summer," said Nancy Pidcock, a reading specialist who will return for a second summer as director of the reading portion of the camp.

"This chance to review skills

To make reading fun, Pidcock emphasizes using skills rather than new learning. Children will act-out a play and, if there are enough older children, write a play.

their writing and they will do crafts projects-in which they must read the directions themselves. Word games are a big part of the camp, too, she said.

In the math camp, children will reinforce basic skills and adapt their problem solving skills to reallife situations , said Deborah Proleika, an elementary teacher who will direct the math camp.

Children will practice with math and use them in a camp-style and money in a make-believe store, atmosphere can help them get off play skills games and reinforce

Pidcock earned her undergraduate degree from Penn State and a master's in psychology of reading from Temple University. She has worked in a variety of classroom They will make a magazine of and individualized instructional programs in New Jersey and in the Philadelphia area.

> Proleika, who earned her undergraduate degree at Wilkes College, is working toward a master's in elementary education at the University of Scranton. She has taught at St. Boniface Elementary School, Wilkes-Barre for the past two years.

> For further information, contact the Wyoming Valley Montessori School, Market and Maple, Kingston, PA 18704 or call 288-3708
