LOCAL PROS

A FACE THAT COULD STOP A TRUCK.

At Saab, we believe that as long as cars and trucks share the same roads, cars should be built accordingly. So, while no car can promise complete protection in an accident, the Saab 900 offers considerably more than most. Its passenger compartment is guarded, front and rear, by large impact-absorbing crumple zones (see the diagram above). Its flanks, by thick steel-rein-

forced doors, doorposts and windshield pillars. The result is a car so crashworthy, it earned one of the highest safety ratings of any vehicle in its class. And as additional assurance, the 900 also offers an anti-lock braking system and driver's-side air bag as standard features. If you agree that sports sedans should be held accountable for their record on safety, as well as the race-track, stop by your dealer for a Saab 900 test drive.

* Based on personal injury claims compiled by the over 250 insurance companies of the Highway Loss Data Institut. © 1990 Saab Cars USA, Inc.
