

Above is an improvement expansion currently underway at the Dallas Shopping Center. Under construction at this time, scheduled for completion by September of 1991, is approximately 10,000 Square feet of new store space. Included in the improvements will be extensive renovations to the facades of all buildings.

A new Shopping Center sign has been installed and new, modern signage will give the center a smart new appearance.

Several new leases have been signed, including B. Levy & Son, and several existing tenants will be expanding in the near future.
