GENERAL WATERWORKS OF PENNSYLVANIA, INC.

General Waterworks of Pennsylvania, Inc., just recently completed a capital improvement program in our Harveys Lake Borough water system, placing these facilities into operation approximately three weeks ago.

The improvements costing approximately \$160,000.00 included the purchase of land at the top of Carpenter Road, the drilling of a new well there on, and construction of a treatment facility and 22,000 gallon finished water storage reservoir as well as the installation of approximately 1,700' of water main to connect these facilities to our existing service area.

These facilities were put into service approximately three weeks ago and have corrected longtime system deficiencies, of low water pressure and lack of finished water storage that was the cause of numerous service outages.

We at General Waterworks of Pennsylvania, Inc., would like to take this opportunity to thank our consumers in Harveys Lake Borough for their demonstrated patience and understanding during the design, construction and placement into service of these system improvements.
