ODDS 'N ENDS - Making plans for this year's Odds 'n Ends booth are Mary George, Sybil Pelton and Jean Grimes.

Odds 'n' Ends booth features useful, affordable used items

Visitors to the auction certainly won't miss the Odds 'n Ends booth - it's the biggest tent on the grounds.

Featuring a variety of good used items to meet just about any need, the Odds 'n Ends booth is a good place to begin looking for inexpensive things to get started in that first apartment or dormitory room.

All the electrical appliances work. And it's easy on the wallet.

"This is the best collection of goods that I've seen in several years," said Sybil Pelton, who with Mary George and Jean Grimes has undertaken the mammoth task of

sorting and pricing everything which has come in.

Odds 'n Ends certainly wouldn't be complete without costume jewelry, which Marion Harvey has cleaned, repaired and prepared for sale.

Mrs. Pelton said that visitors can expect to see some "fabulous" toys, a set of golf clubs, stuffed animals sure to please the little ones, radios, stereos, lamps, dishes and even a crock pot.

The Women of Kiwanis will help out at the Odds 'n Ends booth the four nights of the auction.

Come Join us for Old-Fashioned Fun!

 Our Tire Center Has All Types and Sizes Available

THE GREEN WAY TO CAR SERVICE
 At Automobile City we're dedicated to serving your vehicle without harming the environment. Our Castrol Quik Lube will change your oil quickly and we use your old oil to heat our building. We recycle freon, thinner, cardboard, paper, almost all metal and much much more so it doesn't end up in our landfills. Old tires are recycled to make a variety of products or disposed of in a sound manner. We even accept used oil from do-it-yourselfers so it doesn't end up in the wrong places. Stop & see us today.
