Lehman Haunted Barn open October 15-31

For the 11th straight year the staff of the Lehman Haunted Barn is proud to present more than 20 displays, and more than 30 performers in a thrill show like never before!

When you arrive you can see the performances of the Lehman Girl Scouts as they paint faces and demonstrate balloon wrestling; the Lehman Fire Co. whose members provide safety lessons and are always ready to give victims a free ride in their ambulance if necessary; and members and friends of the Lehman U.M.Y.F. who provide a type of escort service through the entire building, serve refreshments to weary travelers and demonstrate the fine art of surprise.

Some other shows and displays you will encounter throughout the performance include: "The Swinging Bridge", "Don't Hang Around Too Long", "The Graveside Singers", "What's Cooking Good

Lookin'", "The Rats Nest", and "Wind and Water Before You Leave".

The Wyoming Valley Children's Aid Fund is solely funded by the efforts of the Lehman U.M.Y.F. The youth have again pledged 30% of their profits from their annual Haunted Barn for the fund and ask that people of the area support them in their efforts to continue financing the Children's Aid Fund.

The performances will be held at the Lehman Haunted Barn, behind the Lehman Post Office, on October 15-17, 21-24, and 28-31 from 7-10 p.m. on school nights and 7-11 p.m. on weekends. A \$3 admission benefits the Lehman U.M.Y.F., the Lehman Volunteer Fire Co., the Lehman Area Girl Scouts and the Wyoming Valley Children's Aid Fund.

Additional performances and information can be heard on the Spook Line, by calling 675-1216.

Don't Forget To Weather Seal Your Door From The Cold

Ducklode Windsors & Shifman Bedding

Two of the most respected names in furniture.

Our continuous arm chair clearly shows the construction of our Windsor chairs and benches.

All legs, arm post, and spindle holes are drilled completely through the seat and arms. Glue is placed in the hole. The legs, posts, and spindles are then secured in the holes. These parts are then split with a chisel and a wooden wedge, with glue driven down into the split to widen the parts in their holes creating a super tight fit.

This 18th century assembly method prevents the chair from becoming loose over years of use.

Something you never see, but it is important to know.
