THE ENEMY

We call them *taraxacum officinale*, but you know them as Dandelions. We know they can destroy the appearance of your lawn. We know they can make your property the eyesore of the block. We know they are hard to kill. And soon, you'll know it too. Because they are coming.

THE DEFENSE

The Turf Professionals at Green Machine Lawn Care can wipe out this year's batch of *taraxacum officinale*. But best of all, we can do it while actually improving the health and beauty of your lawn.
