Canfield, a tennis star while at Bishop O'Reilly, is executive director of the Middle States section of the United States Tennis Association (USTA), which is located in King of Prussia. Then in 1990 Canfield moved back "home" to head the USTA's Middle States section, becoming one of the youngest executive directors of a USTA section.

Canfield was honored at the Second Annual Young Alumni Awards Banquet on Sunday, April 24, at Peppe's Ristorante in East Stroudsburg. Joining her in the festivities were three other recipients—Jeffrey McCubbin ('76), Christopher Novak ('82) and Frann E. Vetter ('83). Our continuous arm chair clearly shows the construction of our Windsor chairs and benches.

All legs, arm post, and spindle holes are drilled completely through the seat and arms. Glue is placed in the hole. The legs, posts, and spindles are then secured in the holes. These parts are then split with a chisel and a wooden wedge, with glue driven down into the split to widen the parts in their holes creating a super tight fit.

This 18th century assembly method prevents the chair from becoming loose over years of use.

Something you never see, but it is important to know.
