SKI TIP #3
by Sean O'Shea

Q. What kind of ski boots are best?
A. The best boots are the ones that fit you. That means they may not fit your best friend, but if your feet are not comfortable you will not have fun skiing all day. Rear Entry boots are easy to put on and take off and are good for skiers with cold feet. Front Entry boots give better feel for the ski and are usually better for aggressive skiers.
