So, how are you going to pick your health care plan?

With so many health plans making the same old claims about "quality" care, it might seem like picking the right one is simply a hit-or-miss proposition. But choosing your family's health care coverage is too important for you to rely on empty promises. You need facts. Like the fact that with Geisinger Health Plan, the decisions about your health care are made by physicians, not accountants. Or the fact that with GHP you can choose from more than 1400 physicians and specialists in nearly 100 local communities. Why not call us at 1-800-631-1656 and get our free brochure with all the facts? It just might help you make a better choice.

**Just The Facts.**
