Cleanup bids accepted

DALLAS BOROUGH - At the regular monthly meeting of the Dallas Borough Council, council members voted to award the spring cleanup bid to Waste Reduction and Recycling of Wilkes-Barre.

The borough received four bids for cleanup, but Waste Reduction had the low bid for cost per cubic ton for disposal of refuse. Milt Lutsey, borough manager, explained the borough receives mostly refuse. "The big thing here is the price of \$8.50 for refuse," he said during the meeting.

Waste Reduction and Recycling was awarded the bid last year and the borough was pleased with the service. "The service last year was fantastic," said Dallas Borough Road Supervisor, Charles Shurites. He added that dumpsters arrived at 6 a.m., unlike past years when dumpsters sometimes didn't show up until 10 a.m.

There was some debate among board members as to whether or not the board should make a decision with only a few minutes to look over the figures. Board member Theodore Wright abstained from the vote not because he disagreed with awarding the bid, but because he "disagreed with the process. I don't like this process of having numbers thrown at us. We can't open these bids on the night of a meeting, I'm supposed to make a decision in 10 minutes?"

Lutsey said that future bid deadlines will be scheduled for the night of the council's work session instead of the council meeting so that council will have a chance to discuss and review numbers before making a decision.

The spring cleanup is scheduled to take place May 4-10. The borough will be accepting tires, white goods, and refuse.

Also during the meeting, council made a motion to begin the process of bid proposal for construction work between Church and Foster Streets. The work is necessary to correct storm water problems between the exit and entrance to the Dallas Post Office. Council member William Peiffer said a new drainage system will be constructed and a portion of the road will be resurfaced.

Science can be fun

"Mr. Electric," Brad Houk from the Bloomsburg Theatre Ensemble, visited Dallas Elementary school last week for a demonstration on electricity. The program was sponsored by the Parent Teacher Group as one of six educational assembly programs in a series during the year. Getting a jolt out of the demonstration, Lauren Zymniski top and above left, learned about the properties of electrified hair and balloons. Below right, Brian Rosser, Rebecca Pensak and Paul Shaver did the swing thing.
