Library news

Nancy Kozemchak

The Book Club of the Back Mountain Memorial Library held its first meeting of the new year on Monday, Oct. 19 in the community room. The treasurer reported a balance of \$219.37 available for the purchase of new books for the Book Club shelf in the library. A total of \$1,779.62 has been spent to date for 1998 book club books. Plans were made for a Christmas Tea to be held on December 21 for book club members and guests. The next meeting is scheduled for Monday, Nov. 16 in the community room at 1:30.

Holiday Storytime sponsored by Arts at Hayfield will be held at the library on December 12 with

Grand opening of new bookstore to be held Nov. 7

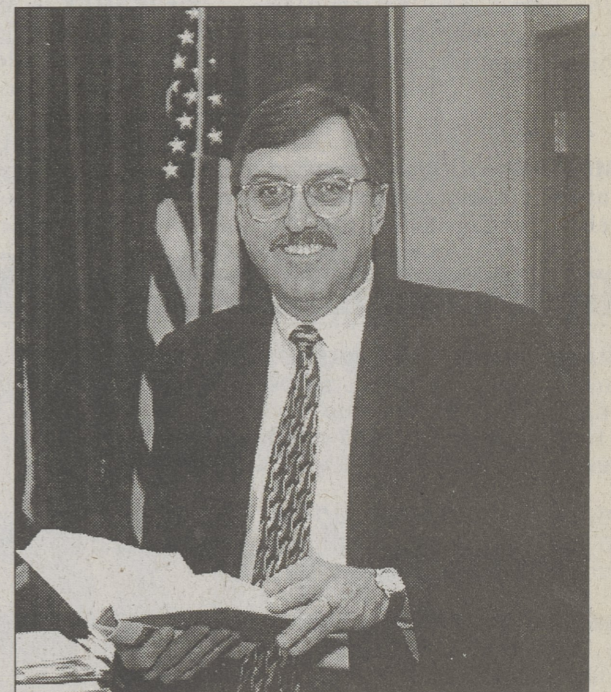

Christmas, Hanukkah and Kwanzaa selections and on March 20 with Easter selections. Times will be from 10 to 11:30 on Saturday mornings. Student readers from the "America Reads" program will be featured.

The Grand Opening of the "Slightly Read Book Store", a permanent store in the basement of the library, will be held on Saturday, Nov. 7 from 10 a.m. to 5 p.m. Featured will be fiction, nonfiction, authors, cookbooks, childrens books, travel and other topics. Permanent hours will be Wednesday from 1 to 8 and Saturday 10 to 5 p.m. volunteer help is needed to help run the store. A sign up sheet is available at the front desk in the library. The entrance to the book store is on the side of the building opposite the main entrance. The outside stairs or the ramp to the store is found there and the store is located beneath the new children's

wing.
New book at the library: "Failure to Connect" by Jane M. Healy, Ph.D. is sub-titled, 'How computers affect our children's minds—for better and worse.' The dedication reads "To my mother, who understood nothing about computers but a lot about living successfully as a human being...and to my grandchildren who, I hope, will understand both." Technology shapes the growing mind. The younger the mind, the more malleable it is. The younger the technology, the more unproven it is. Today's children are the subjects of a vast and optimistic experiment; well financed and enthusiastically supported by major corporations, the public at large, and government officials around the world. If it is successful, our youngsters minds and lives will be enriched. However, there is no proof or convincing evidence that it will work.

- ★ Secured much needed grant money to help the Luzerne County Fair Association
- ★ Acquired state grants for our Local Volunteer Fire Companies.
- ★ Helped our local Police Departments obtain grants that help their ability to protect our safety.
- ★ Assisted our local townships with many equipment grants.
- ★ Keeps a vigilant eye on our rural roads – making sure we get our fair share of the tax money from Harrisburg.

Remember You Can't Buy Experience!
