Red Cross needs volunteer nurses

Due to the increased demand for blood and blood products in our community the need for volunteer nurses for the Wyoming Valley chapter, American Red Cross is critical.

Volunteers provide American Red Cross services and collection of blood is no exception. That is why the Red Cross in your community is making this plea for professional volunteers. By giving of your time, skill and knowledge you will be helping make a safe, available blood supply to your community. Volunteer nurses are trained by the Wyoming Valley Chapter at no cost to them to take health histories and to do hemoglobin determinations and temperatures.

Do you have 6-8 hours a month to volunteer? Would you consider using this time to make sure your family members and community will have the necessary blood when needed?

Won't you please help save a life, by calling 823-7161, ext. #25 for more information on becoming a Red Cross volunteer nurse?

Don't Drink & Drive This Holiday

Myths and Facts About Alcohol and Driving

Learning the facts can mean the difference between life and death during the holidays and throughout the year.

Myth: "I'm bigger so I can handle my liquor better."

Fact: Size is only one factor in how much you can drink. Metabolism, amount of rest, and food intake all play a part in how you handle liquor. Impairment can begin with the first drink.

Myth: "All I have to do is splash my face with cold water."

Fact: Splash all you like. You can even take a cold shower. It may make you cleaner but it won't sober you up or make you a safe driver.

Myth: "I always stay away from the hard stuff."

Fact: Alcohol is alcohol. Beer has the same effect as straight scotch. One 12-ounce beer has as much alcohol as a 1.5 ounce shot of whiskey or a 4-5 ounce glass of wine.

Myth: "Drinking coffee sobers me up."

Fact: Coffee cannot rid your system of alcohol. If just makes you a nervous wide awake drunk. Only time reverses impairment.
