Lake-Lehman cheerleaders' season leads to Florida

The Lake-Lehman High School All Star Cheerleading Squad has just completed a very successful season.

The squad, coached by Sandy Dobrowolski, Aprille Covert and Tara Coletti, has 16 members. Their season started slowly after failing to place at a regional competition held by UCA. It began picking up after being invited to compete at a national event sponsored by the Contest of Champions and Disney's Wide World of Sports in Orlando, FL.

The squad set out to refine their skills and routine. The coaches entered them into a competition in Upper Darby to get them more experience where they placed first and were awarded the top stunt and pyramid award.

The competition in Florida was a great experience for the girls. They were proud to place seventh and receive a plaque of excellence. They even managed to

squeeze in some sun and fun at Disney World.

A week later it was back to business. The squad attended a competition at LCCC and placed third in the Pom-Dance Routine after having to redo their routine to the guidelines of LCCC.

The final competition for the season was held at Six Flags in New Jersey. Due to some unforeseen problems the girls again had to redo their routine. They competed and came out in second place.

Coach Dobrowolski stated, "You would be hard pressed to find more devoted and talented athletes than these girls. They overcame two major injuries, the death of two grandparents, some squad members participation in spring sports and had to redo their routine before virtually every competition and still came out winners. With or without trophies these girls are Number One!"

Back Mountain Trail's first mile now officially open

Luzerne County has one mile of new trail from Luzerne Borough to Wildcat Falls. Once known as the Lehigh Valley Railroad, which transported ice, lumber and leather from Rickett's Glen and Mountain Springs lake to urban regions in the late 1800's, it will now be known to future generations as the Back Mountain Trail.

Five years of planning, hands-on volunteering, fund raising, and PCC trail building have been completed, and one mile is finished and ready to welcome the general public. The introductory mile will eventually stretch into a 25 mile corridor along routes, #309, #415, and #29, safely meeting needs of people

who will walk and ride bikes separated from 47,000 cars and trucks that drive the highway daily.

The first mile is 10 feet wide, surfaced with rolled gravel. Strollers, wheel chairs and non-motorized bikes are welcome on the path that parallels Toby's Creek.

Wildcat Falls is a restful stop to watch cascading water forming a natural pool. Birdhouses have been mounted in the woods by the Pennsylvania Conservation Corps to invite birds to nest. Mountain Laurel dot the landscape surrounded by massive rocks and cliffs. It is truly a peaceful quiet area to enjoy with family and friends.
