State Junior Duck Stamp contests are modeled after the Federal Duck Stamp Competition held by the Service each year to choose the design for the Federal Migratory Bird Hunting and Conservation Stamp (commonly called the Duck Stamp), required of waterfowl hunters 16 years of age or older.

The Junior Duck Stamp Program offers youngsters a unique opportunity to develop their artistic talents while learning about wetlands and waterfowl conservation. It is an innovative way for educators to bring together teaching in science and the arts, stimulating new interest in both.

New Dallas students should register as soon as possible

The Dallas School District is requesting the cooperation of parents with children of school age who have not registered for the 1999-2000 school year.

It is essential that the district be informed as soon as possible, of all new students planning to register, especially the kindergarten and first grade students.

Problems occur with class and school building assignments as well as transportation arrange-

ments when students are registered late.

Parents of new students or those transferring from other schools are strongly encouraged to register their children immediately. Late elementary registrants may not be assigned to the most convenient school building.

All kindergarten through 5th grade students are to register at the Administration Building, Church St., Dallas. Middle and

Senior High students will register at their respective school offices located on Conygham Ave., Dallas.

Parents must bring birth certificates, report cards from the previous school, Social Security cards, and immunization records. No student will be allowed to enter school without proof of the newly required immunizations.

If there are any questions, call the school district at 675-5201.
