

## Open house for Webmaster program at Penn State W-B

Penn State Wilkes-Barre will feature the University's non-credit Webmaster Certificate Program during an open house scheduled at the campus Wednesday, August 2 from 5:30 7 p.m. Twelve courses are being offered in sequence based on prerequisites and it is suggested that participants enroll in and complete the entire certificate program. However, individuals may elect to take specific courses on a space available basis. Tuition reimbursement by employers is an option for students enrolled in the Webmaster program, and an individual payment schedule is available.

The World Organization of Webmasters and the Association of Internet Professionals (AIP) ap-

prove the Penn State Webmaster Certificate, which is offered through the University's College of Engineering and School of Information Sciences & Technology. It is one of only a few webmaster programs approved by the AIP. Some of the courses are HTML levels 1 and 2, Visual and Graphic Design, Legal and Ethical Issues, Emerging Technology, Multimedia on the Web, Security Issues, Javascript, levels 1 & 2, and Network Server Administration.

Open House participants will learn more about the program, review course curriculum, and meet the instructors. Please call 675-9102 or e-mail jqr8@psu.edu for open house reservations or more information.
