# they hear

## They hear the future.

They hear a cry for RCN's Megaband™ Network. And they listen. First, they passed a million homes with its raw, fiber-optic power. It brings phone, cable, Internet and the possibility of so much more. The vibrant sounds of today, the hum of tomorrow. It will change the world.

## They made history.

They are RCN's employees, 6,414 and growing. On the 29th of June, in Boston, they made their milestone one millionth network connection. And with every step, their momentum is building.

## They are the center of everything we do.
