Water main work in Kingston Twp.

Kingston Township has announced the Pennsylvania American Water Company (PAWC) will soon complete the installation of new water mains on various streets in the Trucksville area.

The water company will resurface the streets in the spring of 2001. The permits issued by the Township, and by agreement with PAWC, require a full width overlay of all streets where trenches were dug for the new water lines. Work was not completed in time for the resurfacing to be completed in 2000.

"The Township does not want the paving completed in poor weather conditions," said Twp. Manager Jeffrey Box.

The Township assures residents that PAWC will complete the resurfacing as early as possible in the spring of 2001. The Township regrets any inconvenience to residents; however, residents should understand that the water company's work schedule is beyond the Township's control. Questions about the project should be directed to Twp. Manager Jeffrey Box at 696-3809.
