of kindergarten through third grade and fourth grade through sixth grade.

"Mrs. Williams' second grade class and Mrs. Wilson's fourth grade class read the most at Lehman-Jackson this year," said Mrs. Attanasio.

Last year, the three Lake-Lehman elementary schools, Lehman-Jackson, Lake-Noxen and Ross, read an all-time high of 3,869 books, and they were eager to beat that record this year.

Mrs. Cortegerone, one of the coordinators for Read Across America, and Cheryl Summa, the RIF chairperson, proudly report that "7,795 books were read by the students this year. Lehman-Jackson students read 3,864 books. Lake-Noxen stu-

dents read 2,495 books and Ross students read 1,436 books."

Other educators who helped coordinate the program were Betsy Balonis, kindergarten teacher from Lehman-Jackson; Kathy Becker from Ross, and Patricia Peiffer, reading specialist from Lehman-Jackson.

The PTA's free RIF book distribution was made possible by funds raised by the Lehman-Jackson PTA, with major contributions from UGI Corporation and special assistance from Sam's Club.

"We are so pleased with the improvements of our students this year," said Mrs. Attanasio. "I think we'll send a copy of this article and pictures to Mrs. Laura Bush at the White House."

arriving at the residence the woman was in full cardiac arrest. The woman was taken in the ambulance and the boys administered full CPR.

She's the youngest candidate of them all. But Renee Yuscellis, 20-year old student at College Misericordia, is hopeful that her age will not be a factor as she runs on the Democratic ticket for a seat on the Harveys Lake Borough council this year. "I live at the lake," she said.

"The lake is going to be my home. I would like to have a part in shaping what the lake is going to be."

Patricia M. McGlynn, daughter of retired Army Staff Sgt. and Mrs. John J. Dritchman of 57 Shaver Ave., Shavertown, Pa., has been promoted in the U.S. Air Force to the rank of Airman First Class. McGlynn is a chapel manager at RAF Lakenheath, England.

Principal Robert Kunkle stopped by to pose for a picture with, from left: Kieran Sutton, Mrs. Balonis and Jessica Campbell.

easier and shorter recovery

CMC Announces New Procedure For Abdominal Aortic Aneurysms

CMC's vascular surgeons are pioneering the use of Endoluminal grafts to treat patients suffering from abdominal aneurysms. Prior to this procedure, repairing aneurysms required major surgery and a large abdominal incision. Recovery took a week or longer in the hospital followed by a significant period of rehabilitation.

CMC's Endoluminal grafts provide many benefits to patients including easier and shorter

recovery. Patients spend between 24-48 hours at CMC compared to the 7-14 day stay required in the past. Best of all, patients can resume their normal activities almost immediately with no rehabilitation.

CMC's Endoluminal graft technology may be the right choice for you. If you have an aneurysm, call 1-866-381-9511 to see if you are a candidate for this procedure.
