"You can't lose!
 Bump up the rate or withdraw when you need to."

E. Lee Beard,
 President & CEO

Our You're In Control CDSM puts you in control of your savings two ways.

First: Should interest rates rise on our regular 4-year CD's, don't worry! You have a one-time option to bump up the rate on your You're In Control CD to the new rate for your remaining term.*

Second: If you suddenly need money for an unexpected event, don't worry! you can withdraw up to one half of the money in your You're In Control CD penalty free as long as you maintain the minimum balance requirement!

The You're In Control CD is a great way to take advantage of market upswing, while protecting your money should interest rates go down. Ask about our You're In Control CD this week. It's just another way we have of showing you that you really can expect a difference at First Federal Bank.
