Brandon Harding demonstrated how the pitch of sound is affected by the volume of liquid in bottles.

## Dallas Elementary Science Fair

The Dallas Elementary School hosted its sixth annual student science fair last week in the school gymnasium. Students demonstrated their scientific prowess with dozens of exhibits that were shared with parents and the community.

Heather Harvey, Keith Baxter and Thomas Lynch were transfixed by a "volcano."

Kate Grompone showed Sharon Krawetz how her homemade anemometer worked.

Ryan Hogan showed the power of the pulley.

Whitney Chranowski, Adrienne Box and Dana Krawetz tested the power of static electricity.

Sabrina Alles demonstrated her exhibit.
