PPL Gas Utilities Announces Rate Reductions!

The gas supply charges are going down on your bill!

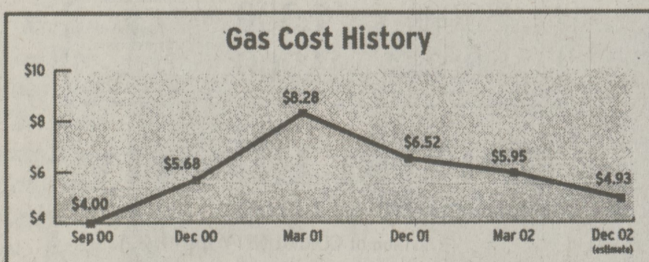

Your gas bill includes various components of gas service. One component, gas supply charges, reflect the prices we pay to buy, transport and store the gas you use. The bill shows what you pay for each component so you can compare prices in Pennsylvania's competitive gas market.

This is the fourth straight quarterly reduction!

PPL Gas Utilities has reduced your bill in four consecutive quarters going back to March 2001. Your total gas bill today is 17.5 percent less than it was last March. We continue to look for ways to keep your gas bill as low as possible.

I won't be using much gas in the summer. What can I expect next winter?

In May of each year, we file an estimate with the Public Utility Commission of what we think our annual Gas Cost Adjustment will be for the 12 months starting Dec. 1. You will see an announcement of this filing in your May bill. We project, at this time, a reduction of about \$1.02 per dekatherm. This filing is an estimate; the actual amount for next year will be determined on Dec. 1.

Thank you for choosing PPL Gas Utilities. It's our pleasure to show you the many benefits that natural gas can provide. 1-800-652-0550
