Deer hunt scheduled at **Frances Slocum State Park**

The state Department of Conservation and Natural Resources (DCNR) will conduct a regulated deer hunt at Frances Slocum State Park, Luzerne County, Monday, December 9, to help control the deer population within the park.

The one-day hunt is for whitetail deer only, and will be conducted in areas not normally open to hunting. To ensure the safety of all park visitors, the park will be closed to all other activities this day.

To participate, hunters must hold an unfilled Luzerne county antlerless license. Only manually operated shotguns 20 gauge or larger, or muzzleloading firearms will be allowed. The hunt will be limited to the first 40 hunters that arrive at the park starting at 6 a.m., and will not be chosen by lottery drawing. All hunters entering the park will be checked to ensure they have a valid unfilled Luzerne county antlerless license and appropriate firearm, and be asked to fill out a registration and safety orientation form before being assigned a designated parking area.

"When the deer population is out of balance with the park land, it affects other wildlife, in cluding the elimination of plant species and destruction of habitats for birds and small mammals," said Roger Fickes, director of the Bureau of State Parks. Fickes explained that the excessive deer herd is destroying park vegetation and needs to be controlled on a yearly basis. He said that after hunts at other state parks, the park staff usually sees a return of long absent wildflowers, shrubs, and small trees

Safety zones, no hunting areas, and park boundaries will be posted and strictly enforced. Extra park rangers and Pennsylvania Game Commission personnel will be stationed throughout the park area during this hunt.

For more information about the regulated hunt, call the park office at 696-3525.
