Leaf collection being held in Dallas

Dallas Borough is holding its fall leaf collection program. Collection will continue through November or until the first significant snow event of the winter season.

Leaf collection guidelines:

Leaves should be raked to the curbside for vacuum collection. Do not include grass clippings or other yard waste.

Residents are asked to rake all leaves to the curbside in long thin rows approximately 3 feet wide. Placing the leaves curbside in this manner will facilitate collection.

For more information, call the borough administrative office at 675-1389 or the road department at 674-5362.

be done before the tree created even more of a problem."

Borough manager Joe Moskovitz has heard a few negative comments from local residents, but understands why the decision was made.

"We're talking about a safety issue," he said. "There are some people who aren't happy about it. But in the end, the decision was made by the people who knew the tree the best."

When R.N. Fitch & Sons, Inc. removed the older tree from the ground, the stump broke into pieces.

"It was so dried out," said Fitch. "Some people thought the older tree was beautiful, but how close did they look at it? If you took a real good look at it, you could see how it was dy-

ing." Decorating the older tree during the holidays was proving to be a monumental task in recent years. In addition to blocking off a lane of Route 415, volunteers from the Dallas Lions Club put themselves at risk by going near four stories high to place the lights and decorations on the tree.

The new tree was donated by Rave's Nursery and will be maintained by the Dallas Lions Club. It is expected to grow to 20-24 feet within the next six to eight years.

"It's going to be a very nice tree and it's going to be just the right size," said Fitch. "I know the new tree looks small right now, but just wait for a few years. The borough is 150 years old. Another four or five years is nothing."
