Variety. Working in a town I love. Working for a company I love. That's what's in it for me. Seventeen years ago I made a list of companies I thought would be great

places to grow my career. **The Times Leader** was at the very top of my list. Because I used to advertise my restaurant regularly and knew first-hand the assistance

and respect the sales team provided clients. We still do.

Call me at 829-5000 and I'll tell you what's in it for you when you advertise and read our paper every day.
