Lands at Hillside Farms expands product offerings in local markets

The Lands at Hillside Farms recently expanded its product offerings into select local supermarkets in the Wyoming Valley.

Andy Check, Executive Director of the two-year-old non-profit organization, announced that Hillside ice-cream is now available at both Gerrity's and Schiels Markets at all their Luzerne County stores.

In addition, Wegmans Wilkes-Barre store offers Hillside's renowned eggnog during the holidays.

Hillside's dairy is the sole sur-

living fluid milk bottling plant in Luzerne County. In addition to its milk products, The Lands at Hillside Farms manufactures ice-cream for both the retail and wholesale markets.

Consisting of 409 acres of land in Kingston and Jackson townships, the farm possesses over a dozen structures built between the 1820s and 1900, in addition to more modern structures.

The Lands at Hillside Farms assumed all management responsibilities for the 127-year-

old landmark property on December 1, 2005. The new non-profit, an IRS approved 501 (c) 3 charity, was established to preserve this historic property and to educate the public on the benefits of healthy eating and local agriculture.

In addition to scheduling numerous events for the public, The Lands at Hillside Farms has developed a strong educational program aimed at students from kindergarten through high school.
