Safety. It's imbedded in every inch of our cars. Right down to the available wood inlay in the dashboard. This inlay has been engineered to such detail that in the event of an accident, it will not splinter. Now imagine, with engineering that meticulous, what that means for our airbags,† 3-point safety belts, Brake Assist and crumple zones. It's no wonder the Audi A4 and A6 were awarded "2007 Top Safety Pick" in their class by the IIHS‡ and the Audi Q7 received NHTSA's highest possible crash-test rating.††† Now is the time to learn the true meaning of "safe." It's at your Audi dealer. Audi. Truth in Engineering.
