Safety. It's imbedded in every inch of our cars. Right down to the available wood inlay in the dashboard. This inlay has been engineered to such detail that in the event of an accident, it will not splinter. Now imagine, with engineering that meticulous, what that means for our airbags, 3-point safety belts, Brake Assist and crumple zones. It's no wonder the Audi A4 and A6 were awarded "2007 Top Safety Pick" in their class by the IIHS† and the Audi Q7 received NHTSA's highest possible crash-test rating.†† Now is the time to learn the true meaning of "safe." It's at your Audi dealer. Audi. Truth in Engineering.

Airbags are supplemental restraints only and will not deploy under all circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age. †Top Safety Pick† based on 31 mph side-impact crash test, 40 mph frontal-offset crash test and 20 mph rear-impact test and the availability of ESC. Tests performed by the Insurance Institute for Highway Safety. For details see www.iihs.org. ††Government crash-test ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program. www.safercar.gov. Based upon frontal and side-impact tests. Model tested with standard front side-impact airbags. *30-month closed-end lease offered to qualified customers by Audi Financial Services through participating dealers.
