**INSTALLATION AND SERVICE TECHS**  
Welding Works services and installs computerized metal working machinery... We don't "just weld" anymore. What we do is install the machines that cut everything from armor plating to stainless steel. We also maintain and service the equipment we install. Welding Works is looking for several installers and we will teach you what to do! No experience necessary, welding skills not needed, but you should be able to use a variety of tools and be willing to do some manual labor. An electromechanical background would also help. One thing more: you need to be able to travel. We are based out of NEPA but work all over North America. Immediate openings available. Pay is negotiable.  
Fax or email resume to: [Weldworks333@gmail.com](mailto:Weldworks333@gmail.com)
