Two days before Christmas it was year-old James Dale, not yet able to walk, who took a twisting header on the floor of the living room and broke his right arm. The day after Christmas, it was Pamela, eleven, who broke an ankle on the skating pond near her home.

When Pam was sixteen months old she broke her right arm, and two years ago, when knocked down by a car, she broke two ribs. Harry, now nine years old, had three broken arms.

Mrs. Hunter is holding her fingers crossed, waiting for spring to come, though she admits that icy weather doesn't necessarily spark the breaks. Her children, she says, can break a bone at the drop of a hat. They have proved it.
