Residents can help postal service 'Stamp Out Hunger'

Residents throughout Pennsylvania are being asked to help feed the needy by participating in the "Stamp Out Hunger" Food Drive sponsored by the National Association of Letter Carriers (NALC) in conjunction with the Postal Service.

Letter carriers will collect non-perishable food donations left by mailboxes along their routes as they deliver mail on Saturday, May 9, to help stock local food banks for the needy.

This one-day food drive is part of a nationwide drive designed to fill food bank pantries throughout the summer months when levels are traditionally low. Letter carriers from all 50 states and hundreds of cities will participate.

An estimated 35 million people are at risk of hunger in America, including 12 million children.

Around late spring, most food banks begin running out of donations received during the Thanksgiving and Christmas holiday periods. This drive is one way people can join the Postal Service and other local sponsors to help stamp out hunger in communities across the country.

How it works

• More than 125 million postcards sponsored by Campbell's Soup Company and the United States Postal Service's Priority Mail will be mailed to customers in towns and cities throughout America, letting them know how they can help.

• Customers are asked to place non-perishable food items next to their mailbox on Saturday, May 9, before their letter carrier delivers their mail. The carrier will do the rest, taking

the food to the post office where it is sorted and delivered to a local food bank or pantry.

• Other co-sponsors of the drive with the NALC and Postal Service are Feeding America, formerly known as America's Second Harvest, the nation's food bank network; the United Way of America and its local United Way agencies and the AFL-CIO.

• The 17th Annual NALC National Food Drive to "Stamp Out Hunger" is the largest one-day food drive in the nation. Carriers collected a record 73.1 million pounds of food in last year's drive. The drive is held annually on the second Saturday in May in over 10,000 cities and towns in all 50 states, the District of Columbia, Puerto Rico and the Virgin Islands.

SpineWorks
 Advanced Chiropractic Solutions
 Let me start by thanking all of you who have called, emailed and checked out our website. We here at SpineWorks are so excited that you enjoyed my own personal "Chiropractic Health Story". Now I want to invite all of you to begin yours with us.
 I am sure that you have some questions and I am going to address one of those today. "I've been to a chiropractor before and it didn't work, aren't you all the same?" - Like with all things, not all are created equal or alike. There are many different abilities, approaches and opinions in health care. At SpineWorks we utilize a technique named Chiropractic BioPhysics® (CBP) and the next closest office to offer this very advanced service is over an hour away. CBP® is in short, a higher level of chiropractic. It is a more knowledgeable, comprehensive, systematic, scientific approach to chiropractic, which provides predictable results for patients. CBP® combines standard chiropractic joint adjustments with **mirror image®** (opposite position) postural adjustments, **mirror image®** spinal/postural exercise, and **mirror-image®** traction to provide more permanent relief and improved health for patients through spine and postural correction. Please contact us for more information and even if it's not for you, you may find the information and research very empowering to your own health.
 We welcome you to our office for a free consultation to meet me, Dr. Bill and my staff (my wife Christi and Moose the office dog), tour the office, and ask all the questions you may have. There is never any obligation and never any pressure. SpineWorks is here to deliver the highest level of health care and health education possible. Thank you for helping us make that a reality.
