Advanced Chiropractic Solutions

Dr. Bill Albert

Consumer Reports Health Ratings Center recently surveyed over 14,000 subscribers with lower back pain in the past year and Chiropractic had the most satisfied patients. 59 percent of people were 'Highly Satisfied' with chiropractic treatment. Only 34 percent were as satisfied with their primary care doctor and physical therapy and acupuncture falling somewhere in between.

This is another great example showing chiropractic care to be exceptional with treating back pain, but that is not all we do. Headaches, knee, shoulder and other joint pains, carpal tunnel syndrome, degenerative arthritis and whiplash are just some examples of what chiropractic treatment can help with.

SpineWorks is also unique in what we can offer to those of you suffering with scoliosis. We have the means not only to slow down the progression, but in many cases actually reverse it. Stop in any time we are open and I'll be happy to explain to you our highly specialized technique and see if it can work for you.
