Barbecue will note club's 10th

By REBECCA BRIA rbria@timesleader.com

It's been 10 years since the Elementary Foreign Language Academy was created in the Dallas School District. Since then, hundreds of Dallas children have been exposed to foreign languages at a young age.

In celebration of the EFLA's 10th anniversary, the Dallas High School International Club is holding a bar-

becue on Saturday, Oct. 17, on the school grounds. The EFLA was created and is run by the International Club.

"Every year the International Club has done a dinner to celebrate a different country," said Candyce Fike, who teaches French at the school and serves as the club's adviser and director of the EFLA. "We usually do it in the spring and the club gets together and we put 30 people in a room and give them a fabulous dinner. This year we decided we would do the 10th anniversary of the Elementary Foreign Language Academy.

Students involved in the International Club at the high school help elementary school students from the Dallas School District and Gate of Heaven School learn a variety of foreign languages. Elementary students in grades one through five may participate in the program free of charge. Some kindergarteners and sixth-graders have also been accepted.

The EFLA meets from 4 to 5 p.m. at Dallas Elementary School. A class in each language is held one day per week. Classes are held in the spring and fall and run 10 weeks a semester.

According to Fike, a total of 40 children are currently enrolled in the fall semester and she expects that number to double in the spring.

Fike says the EFLA is currently capable of teaching 12 languages, including Spanish, French, Mandarin Chi-
