 In the naming of American states, there a guite a few that never quite made it. It's interesting to speculate about the possibilities, though. For instance, if you currently reside in the state of Kentucky or parts of Tennessee, but for the whimsy of fate you could be a Transylvanian. Some people once wanted to take parts of Texas and Oklahoma to create the great state of Texlahoma (perhaps displaying a slight lack of imagination). When the Mormon church settled out west, Brigham Young petitioned to have the state of Deseret created, and the land he suggested make up the state included present-day Utah, almost all of Nevada and Arizona, a sizable chunk of California and bits of five other states. Long Island, in New York, even had designs on statehood at one time.
