## Mercy Tyler receives \$1.5 million

Senator Lisa Baker and Representative Sandra Major joined community and business leaders from throughout the Endless Mountains Region of Northeastern Pennsylvania and executives from Mercy Health Partners and Mercy Tyler Hospital to announce that \$1.5 million in Commonwealth funds have been granted to the facility.

The funds will assist in the completion of a multi-million dollar renovation project scheduled to get underway in

early 2011 at Mercy Tyler. In addition to needed expansion work on Mercy Tyler's Emergency Department, the grant will also be used to support the renovation of the hospital's laboratory and both outpatient and imaging departments. The Redevelopment Assistance Capital Program (RACP) grant must be matched by corporate, individual and foundation support to Mercy Tyler Hospital. Hospital officials noted that the renovations are critically

needed now as Mercy Tyler expands services to care for a community that is changing rapidly. The planned improvements will increase clinical treatment space in the emergency department, decrease patient wait times and enhance patient privacy.

Construction on the project is expected to begin next year. In support of this project, the Tyler Health Foundation has launched a capital campaign to raise the matching funds needed for the grant.
