

SUMMIT POINTE BUILDERS, INC.

Homes of Exceptional Quality

- John Halbing, Owner, Summit Pointe Builders

Over and over again, my clients take the time to tell me how much they enjoyed working with my team. Charlie Stajewski is an important member of that team. He personally works with each client, answering their questions, making suggestions and working through any issues that may develop throughout their building process. Charlie is dedicated to making each client's idea a reality. Charlie says that he most enjoys working with new clients and making the home building experience an enjoyable one. His dedication is evident in the quality of the final product and in the comments from satisfied clients.

We chose Summit Pointe Builders because of their reputation for "Homes of Exceptional Quality", and they lived up to it. John and Mike listened to our needs and made excellent recommendations. Foreman Charlie Stajewski, can solve any problem. Their combined experience created the home we love.

We highly recommend this team! Great job guys!

- Leonard and Theresa Martin

Why Risk Building Your Dream Home With Someone That Does Not Have Our Experience!

John Halbing, since 1984, has built over 300 distinctive custom designed homes throughout Dallas and the Back Mountain area. Summit Pointe Builders, since the beginning, has maintained a commitment to providing innovative design, superior craftsmanship and quality construction. John Halbing believes that his ultimate goal with every home is to provide 100% customer satisfaction. This emphasis on customer satisfaction has given John Halbing and Summit Pointe Builders a reputation of integrity, throughout the Back Mountain community and the local building industry.

In addition to building custom designed homes that bring families years of enjoyment, John Halbing has owned and developed several beautiful Back Mountain communities including: Haddonfield Hills, Northwoods, Preston Hollow, Ondish Hills, Roosevelt Street and Windsor Farms. Five years ago, John Halbing partnered with another successful local race car driver, Joe Amato to create Halbing-Amato Development. Most recently, they created Saddle Ridge and Stone Bridge, located in the beautiful Back Mountain.

Now, you can hire Summit Pointe Builders Inc. to do your basement finish, remodel projects and additions.

When interviewing builders for whatever project you have in mind, ask to see homes that they have built. Whether it is 5, 10 or 25 years ago, Summit Pointe Builders can show you homes that WE built. Our homes stand the test of time! There is no substitution for experience.
