#### GREEN INITIATIVES

We have wholeheartedly embraced the Green movement. It's not only good for the environment, it's good for our customers, our communities, our country and definitely our company. Our people feel tremendous pride to be at the forefront of such an important shift in manufacturing, and they know our products will meet the demands of environmentally-conscious consumers. By using Armstrong, our customers reduce home energy costs while doing something good for the environment. The new R410a refrigerant is safer for the environment and has the best performance and efficiency of any coolant on the market.

#### CENTRAL AIR CONDITIONING MODELS

Central air conditioners that achieve a minimum SEER of 16.00 and EER of 13.00 and meet federal standards for Qualified Energy Property are eligible for a tax credit of up to \$300 (provided such products are combined with the proper coil and/or furnace, as applicable)\*

#### ENERGY TAX CREDIT

Under the Middle Class Tax Relief Act of 2010, the U.S. Internal Revenue Service (IRS) is implementing consumer tax credits for homeowners who make qualified improvements of higher-efficiency HVAC equipment to their primary residences. Tax credits are effective for all qualified energy property systems installed from January 1, 2011 through December 31, 2011.

Now is the time to order your A/C installation

## We Offer The Entire Line of ARMSTRONG AIR Coil & Condenser Units
