men who worked at the nearby tannery a century ago.

The township was founded in 1895, six years after George Mosser bought property from Montgomery Schooley to build a tannery.

The population exploded after the tannery was completed, and a one-room school house was built in 1897 to accommodate the influx of youngsters.

The Noxen School was built in 1902 to keep up with the increasing population. An addition was completed in 1922, and the school became one of the first high schools in the area until 1951.

The Mosser Tannery brought hundreds of families to Noxen until it was sold to the Armour Leather Manufacturing in 1914. The tannery continued to operate until 1961.

Pauley thinks the decline of the tannery caused the community to slowly change into what it's become today.

"We were a thriving community," she remembered. "We didn't need anything. We had four stores, a post office, movie theaters, ball fields, hotels, boarding houses, gas stations, churches, two bars. You never had to leave town."

She said Noxen went from a place where kids could roam the woods and neighbors would check up on one another to one with huge trucks barreling

down streets and strangers coming into town daily.

"Back in those days, if you were a stranger, you couldn't get through town without 17 people seeing you," she said.

Pauley thinks the old Noxen School serves as a reminder of the town's earlier years. She hopes that others, especially young people, will appreciate its history and continue to take care of the building for years to

come. "My daughter always tells me, 'I hope the place burns down!' because she knows how much our lives revolve around it," laughed Pauley. "But she's the one who went to Harrisburg to get it on the historic register and she dresses up like the Easter Bunny for the kids and she's having her bridal shower here. I've got my fingers crossed (she'll take care of the building)."

Committee and I pictured us doing the same thing."

He said the idea of the festival is to bring people together during a time when community isn't the first thing on people's minds.

"Things have changed since 30 or 40 years ago," said Fufaro. "We have two parents working and everyone's on the go. We have stretched lifestyles. Whenever you can have this broader sense of community, you can enjoy it when you need to sit down and take a breath."

Though Fufaro said the festival committee has decreased in size, the group is as strong as ever.

"We started with about 25 people, and now we're down to 15, but everyone rolls up their sleeves," he said. "We're always looking for people to get involved."

The 10th year of the festival brings back some of the event's best features while also mov-

ing forward with new ideas.

The "Kiss the Pig" contest will feature contestants from years past, such as Dallas Borough Mayor Tim Carroll, Kunkle Fire Chief Jack Dodson, Dallas Middle School Principal Tom Duffy and former Dallas Rotary President Lisa Pretko.

New this year will be Barnum & Bailey clown shows ev-

ery hour in the Kid's Corner next to the municipal building.

Fufaro said throughout the years, there has only been one goal - to bring people together in the heart of Dallas.

"If people come to downtown Dallas and say, 'Hey, this is a cool place, I'm glad to be here,' then we've done a good thing," he said.
