Your Fridge Doesn't Have to Be This Old to Win with UGI

Judy Szychowski's Frigidaire refrigerator started running the same year the United States entered World War II.

The 1942 Frigidaire icebox came to Szychowski when she purchased a house three years ago and discovered a time-capsule style 1940's kitchen in the basement.

"It was like going back in time to the set of Leave it to Beaver," said Szychowski. "It was complete with a six burner stove, all-metal kitchen set, and an old Frigidaire that still worked."

On Oct. 2, she was declared the winner of a contest sponsored by UGI and Sears to find the oldest refrigerator in the utility's territory.

Despite the end of the contest, anyone can save money by having an energy guzzling relic in their garage or basement picked up for recycling. Owners of older refrigerators can save up to \$150 a year in energy costs and make some extra cash with a \$35 incentive for choosing to recycle.

Participation is as simple as calling UGI at 1-877-270-3521 or by visiting www.theenergyguyatugi.com/recycle to schedule a time for a free home pick-up.

In addition to the guaranteed \$35 incentive that every customer receives for participating in the program,

Szychowski also won a \$250 Sears gift card for being the owner of the utility company's oldest refrigerator.

"Everyone is a winner with this program when they recycle an older, inefficient refrigerator or freezer. It pays off for them through the \$35 incentive, and lower household energy use," said Brian Fitzpatrick, UGI's Manager of Energy Efficiency Programs.

Healthier Selves Walking Seminar & Tours

Thursday, May 16 | 10 a.m.
Irem Clubhouse, 64 Ridgway Drive, Dallas, Pa.
R.S.V.P. by May 13: 866-851-4243
