

MARCH TO VICTORY

Courage is a matter of the blood. Without good red blood a man has a weak heart and poor nerves. In the spring is the best time to take stock of one's condition. If the blood is thin and watery, face pale or simply, generally weak, tired and listless, one should take a spring tonic. One that will do the spring house-cleaning, an old-fashioned herbal remedy that was used by everybody nearly 50 years ago is still safe and sane because it contains no alcohol or narcotic. It is made up of Blood root, Golden Seal root, Oregon Grape root, Queen's root, Stone root, Black Cherry bark—extracted with glycerine and made into liquid or tablets. This blood tonic was first put out by Dr. Pierce in ready-to-use form and since then has been sold by million bottles as Dr. Pierce's Golden Medical Discovery. If druggists do not keep this in tablet form, send 60 cents for a vital to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. Kidney disease carries away a large percentage of our people. What is to be done? The answer is easy. Eat less meat, eat coarse, plain food, with plenty of vegetables, drink plenty of water between meals, and take an uric acid solvent after meals for a while, such as **Acetic** (double strength), obtainable at almost any drug store. It was first discovered by Dr. Pierce. Most every one troubled with uric acid finds that Acetic dissolves the uric acid as hot water does sugar. You can obtain a 30-day package by sending ten cents to Dr. Pierce's Invalids' Hotel and Medical Institute in Buffalo, N. Y.

THE GREAT WAR HAS MADE CIGARETTES A NECESSITY.

"Our boys must have their smokes. Send them cigarettes!" This is a familiar appeal now to all of us.

Among those most in demand is the now famous "toasted" cigarette—LUCKY STRIKE. Thousands of this favorite brand have been shipped to France. There is something homelike and friendly to the boys in the sight of the familiar green packages with the red circle.

This homelike, appetizing quality of the LUCKY STRIKE cigarette is largely due to the fact that the Barley tobacco used in making it has been toasted. "It's toasted" was the "slogan" that made a great success of LUCKY STRIKE in less than a year. Now the American Tobacco Co. is making 15 million LUCKY STRIKE Cigarettes a day.

A good part of this immense production is making its way across the water to cheer our boys.—Adv.

YOU NEED NOT SUFFER WITH BACKACHE AND RHEUMATISM

For centuries GOLD MEDAL Haarlem Oil has been a standard household remedy for kidney, liver, bladder and stomach trouble, and all diseases connected with the urinary organs. The kidneys and bladder are the most important organs of the body. They are the filters, the purifiers of your blood. If the poisons which enter your system through the blood and stomach are not entirely thrown out by the kidneys and bladder you are doomed. Weariness, sleeplessness, nervousness, dizziness, backache, stomach trouble, headache, pain in loins, and lower abdomen, gall-stones, gravel, difficulty when urinating, cloudy and bloody urine, rheumatism, sciatica, lumbago, all warn you to look after your kidneys and bladder. GOLD MEDAL Haarlem Oil Capsules are what you need. They are not a "patent medicine" nor a "new discovery." For 200 years they

have been a standard household remedy. They are the pure, original imported Haarlem Oil your great-grandmother used, and are perfectly harmless. The healing, soothing oil soaks into the cells and lining of the kidneys and through the bladder, driving out the poisonous germs. New life, fresh strength and health will come as you continue this treatment. When completely restored to your usual vigor, continue taking a capsule or two each day. They will keep you in condition and prevent a return of the disease.

Do not delay a minute. Delays are especially dangerous in kidney and bladder trouble. All reliable druggists sell GOLD MEDAL Haarlem Oil Capsules. They will refund the money if not as represented. In three sizes, sealed packages. Ask for the original imported GOLD MEDAL. Accept no substitutes.

CHRONIC CONSTIPATION IS A CRIME AGAINST NATURE

Stop it or you never can keep well. If you wake with a bad taste in the mouth, coated tongue, perhaps headache, your liver is torpid. A torpid liver deranges the whole system, produces dyspepsia, costiveness and piles. There is no better remedy for these disorders than DR. TUTT'S LIVER PILLS. Try them just once and be eternally convinced. For sale by all druggists.

Dr. Tutt's Liver Pills

Win the War by Preparing the Land Sowing the Seed and Producing Bigger Crops

Work in Joint Effort the Soil of the United States and Canada CO-OPERATIVE FARMING IN MAN POWER NECESSARY TO WIN THE BATTLE FOR LIBERTY

The Food Controllers of the United States and Canada are asking for greater food production. Scarcely 100,000,000 bushels of wheat are available to be sent to the allies overseas before the crop harvest. Upon the efforts of the United States and Canada rests the burden of supply.

Every Available Tillable Acre Must Contribute; Every Available Farmer and Farm Hand Must Assist

Western Canada has an enormous acreage to be seeded, but man power is short, and an appeal to the United States allies is for more men for seed-planting.

Canada's Wheat Production Last Year was 225,000,000 Bushels; the Demand From Canada Alone for 1918 is 400,000,000 Bushels

To secure this she must have assistance. She has the land but needs the men. The Government of the United States wants every man who can effectively help, to do farm work this year. It wants the land in the United States developed first of course; but it also wants to help Canada. Whenever we find a man we can spare to Canada's fields after ours are supplied, we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve the combined interests.

Western Canada's help will be required not later than April 5th. Wages competent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, and board and find comfortable homes. They will get a rate of one cent from Canadian boundary points to destination and return.

ALAN R. HAWLEY
President of Aero Club of America Explains Aircraft Shortage.

Failure of congress to appropriate \$3,000,000 was given as the direct reason for the lack of American airplanes in France by Mr. Hawley.

OUR MEN VALOROUS

Americans Credited With "Fighting Like Veterans."

Two Officers Who Were Hurt Receive Decorations During the Action.

Paris.—"Entirely new in this warfare, the Americans worked like the best veterans in the battle of the Somme," says a wounded French captain who has been brought back from the front, according to La Liberté.

Two of the Americans, officers, who were wounded, were brought back with the French captain, a member of the Dragons. Each American wore a French war cross conferred on the battlefield. The French captain refused to receive attention until the Americans alongside him had first been nursed.

"They are the ones who should be congratulated," he said, calling upon the women of the Red Cross to look after the Americans.

The presence of American auxiliary troops on the fighting line in the great battle was the subject of much favorable comment, and when it became generally known that wounded American officers and men were being brought back with the French wounded from the region of St. Quentin American stock rose high. The moral effect was considerable, even though the supposition was that the number of the American troops in line was not considerable.

The comforting thing to the French is that recently, whenever there has been hot fighting, the Americans have had a share of it, even if a small one, and have acquitted themselves ably.

The women drivers of the American Fund for French Wounded, true to their tradition, have put their cars at the disposal of the numerous refugees who are arriving in Paris and are transporting them from station to station or to their friends in the city.

At the Northern Railway station the American Red Cross found itself able to give thousands of refugees the care and comfort they needed after so many hours' travel. Every few hours a train would bring in a fresh lot of 300 of these unfortunates, most of them little children, old women and old men. They had been nearly three years in German hands until relieved last spring, and now have been forced to flee from the homes to which they had returned.

Allies Winning, Says March. Washington.—In a statement Major General March, acting chief of staff, assured the American people that there is no cause for alarm in the advances made by the Germans in the great battle now raging in Picardy and expressed complete confidence in the triumph of the allied arms.

PACKING PLANTS INVESTIGATED.

President Approves Commission to Study Complex Meat Problem. Washington.—Government operation of the big packing houses of the country has become a strong probability. Herbert C. Hoover, the food administrator, announced the appointment of a commission to study the entire complex meat problem, and that some drastic change of policy with respect to meat conservation and distribution must be made immediately.

FRANCE'S FOOD NEED GREATER.

Drive Compelled Abandonment of Supplies; Appeal to United States. Washington.—The German drive in France has compelled the destruction or abandonment of much of the food supply in the Oise and Aisne regions, adding to the difficulties of the food situation in France. The attention of the American government, it became known, has been called to the need for additional food in France, where before the present battle the bread allowances were low.
