#### LESSON FOR APRIL 28

JESUS REBUKES SELFISHNESS.

LESSON TEXT-Mark 9:30-50. GOLDEN TEXT-If any man desire to e first, the same shall be last of all, and ervant of all.—Mark 9:35. DEVOTIONAL READING-I Corin-

ADDITIONAL MATERIAL FOR TEACHERS—Matthew 5:41-42; 20:20-28; JUNE 22:24-30,
PRIMARY AND JUNIOR LESSON
MATERIAL—Mark 9:30-37.
PRIMARY MEMORY VERSE—Be kind

JUNIOR MEMORY VERSE-I John 4:

I. The Stupidity of Selfishness. (vv. 30-32). Jesus with his disciples is on his way to Capernaum for the last time. He is seen to leave for Jerusalem, where he is to die on the cruel cross for the world's sins. He still seeks the way of retirement in order to be alone with his disciples, his object being to lead them into the apprehension of the meaning of the cross. The teaching which was interrupted at Caeserea by Peter's rebuke is now resumed, and with definiteness he declares the future event as already

1. "The Son of Man is delivered into the hands of men.'

2. "They shall kill him."

3. "He shall rise the third day." While pressing upon them continuously the fact and necessity of the cross, he never failed to show them the bright side—his triumphant victory over death in the resurrection. The hearts of the disciples were so steeped in selfishness that they failed to understand his teachings. If the disciples had more definitely attended to his teaching concerning the cross, they would have been better prepared for the hour of temptation which was so soon to overtake them.

II. The Wrangling of Selfishness. (vv. 83-37).

1. The searching question (v. 33). The omniscient Christ knew the secrets of their hearts. The fact that the disciples were wrangling about officia! position while the Lord was facing humiliation and death for them and the whole world, shows how completely the Lord was alone in his sor-

2. The silent disciples (v. 34).

They were ashamed in his presence, because the selfishness of their hearts was revealed. To realize the presence of the Lord would shame us of much of our selfishness.

3. The stinging rebuke (vv. 35-37). "If any man desire to be first, the same shall be last of all, and servant of all." The greatest among men are those who are willing to take the lowest place and serve others. This truth he enforced in a concrete way by placing a child in their midst. This child was an illustration of dependence and ignorance. By example and word he shows that true greatness is expressed by willingness to aid the weak, to instruct the ignorant and to serve those merely to those in need, but unto Christ and God. True greatness, therefore, consists not in selfseeking, but needy in the name of Christ.

III. The Intolerance of Selfishness (vv. 38-41).

1. John's guilty conscience (v. 38). In the light of the teaching of Jesus John was a little disturbed over having 'forbid" a worker for Christ who did not follow after him. Doubtiess this intolerance was in part due to jealousy for Christ, but also a selfish ambition. Many times Christians mistake bigotry

for zeal for Christ 2. Whom to tolerate (vv. 39-41).

(1) Those who are casting out devils (v. 39). We should really satisfy ourselves that supernatural works are be ing done. Are demons being cast out? However, this is not final, as there is a supernatural work not of God.

(2) Those who are not doing this work in Christ's name (v. 41). Any worker going forth in the name of Christ, and for the glory of Christ, should be given Godspeed. If he is doing a good work, even though not in your way, or if not a member of your church or school, "Forbid him not."

IV. The Awful Issue of Selfishness. (vv. 42-50).

Selfishness results in ruin to others (v. 42), and also to the individual (vv. 43, 45 and 47). In either case the issue is eternal torment in hell. Selfishness is opposed to God, and that which is opposed to God must be eternally separated from him. Self-renunciation should be so complete that we should be willing to abandon the most necessary and lawful things in lifehands, feet and eyes-when they become occasions for stumbling either to ourselves or to others.

### Need of Influence.

"Every one of us needs influence and some impulse outside of ourselves to compel us to strive for our ideals. The best impulse that can uplift the life is the friendship of Jesus. He says: 'Ye are as friends if ye do whatsoever I command you."

God's Presence.

# "PRUSSIC ACID" FATAL

Liberty Bonds Will Prove Highly Successful Antidote.

Average Dose of Remedy Is From \$50 to \$5,000-Ample Evidence Why Immediate Provision Should Be Made.

#### By LEIGH MITCHELL HODGES

of the Vigilantes. Prior to August 1914, prussic acid was known as one of the deadliest poisons, but comparatively few perons were killed by it.

Since that time German autocracy has killed and maimed millions and jeopardized the life and liberty of ali free nations by wholesale use of a new kind of prussic acid-a "hydrocyanide" of brute force which, if not hindered, will be as fatal to freedom as the prussic acid of the laboratory to him who inhales its deadly vapor.

With this deadlier prussic acid, the kaiser and his crew are trying to poison the minds as well as the bodies of those who will not submit to the domination of might. Thus far he and his hell mates have succeeded fairly well, but a new antidote for this pois on will check the peril if amply ap-

Americanism is its name, and the method of application is as follows:

As soon as symptoms of the poisoning appear-either in the form of trench, air or submarine raids or German propagandaplanting, take one large dose of Americanism in the form of Third Liberty Loan bonds.

The effect will be instantaneous. At once the purchaser will pass from a state of approaching despair to an unprecedented degree of satisfaction at having backed up the boys who are fighting for freedom and the millions of men and women who are working to help win the war. This will be followed by a sense of security in having strengthened our defenses against devilism, and at the same time the effect on the foe will be that of a powerful emetic, causing them to throw up their hands in herror at the thought of such whole-hearted support of the Allied Cause.

For the average American the dose suggested is from \$50 to \$5,-000-taken daily in small quantities over a long period, or swallowed at one time and followed by a feeling of happiness which cannot be appreciated until experi-

And while this is suggested as the most admirable antidote for this poison, it also possesses the peculiar quality of providing a 'pill" for Kaiser Bill at the same time. Testimonials from millions of Americans who already have used this remedy and like it so well that they are going to lay in another large supply, make clear the use for buying your bonds

of the Vigilantes. Place your elbows on your knees. helping to provide the necessaries of life, depending on others for food and ance with his wishes. clothing while they fight, the industrial order is thrown completely out of balance. The ship of state is passing through troubled waters. What can we do, what must we do, to insure safe

#### How to Prevent It.

World want cannot be prevented by oardings. Neither is anyone's safety dependent on the amount of money he has hidden away. Safety depends on the sane, wise, unselfish use of the resources of the nation. Every man's resources are the resources of the nation. Safety depends on the willingness of the individual to share now with the government every resource he possesses-thought, activities, money. The right, free use of these, our powers, should be towards production, not restriction. Of what avail will money be later, if there should be little or nothing to buy? The government is trying to speed up production. It will try harder by-and-by. Help on towards your own safety and the safety of all by helping the government. Therefore, buy Thrift stamps, War

Saving stamps, Liberty bonds. So do you put your hand, with all the other hands, on the helm of our ship, and become one of the pilots who will steer it through the storm to a

#### "Wool" From Cork.

safe harbor.

The department of overseas trade has been informed through a reliable channel that a Spanish firm is manufacturing "wool" from cork, which, it is claimed, may with advantage be substituted for natural wool in the manufacture of mat-tresses, pillows, quilts, etc. This material is stated to be cleaner and lighter than wool.

Coal said to be equal in quality to the best American steaming coal has been discovered in Venezuela.

GREATLY REDUCES FIRE RISK

Advantage of Standardizing Fire-Hose Couplings Quickly Perceived by Up-To-Date Communities.

An association was formed in an Ohio city recently with the idea of standardizing the firehose couplings in the district, and it was found that some of the odd-size hose couplings could be changed to standard at small expense by means of taps and dies furnished free by the inspection bureau, reports Country Gentleman. It also was ascertained that by means of adapters couplings in other cities could be made; but in some towns the size was prohibitive. Now other cooperative associations are being formed that are reaching out into Penn sylvania, Kentucky, Indiana and West Virginia, and demands for the taps and dies have come from Texas and New Jersey.

The co-operative idea not only takes In the waterworks towns, but also the smaller places, and the chiefs of the several co-operative units have canvassed their districts so that now they know not only what equipment to send in case of urgent call, but the available water supply, the state of the roads and the construction and character of the buildings to be worked upon. As most of the Ohio equipment is now motorized, remarkable time is made in getting to towns where there is no fire-fighting equipment at all but where a powerful combination chemical truck could handle a blaze satisfactorily. Many of the chiefs of volunteer organizations are now visiting the headquarters of the city departments and gaining practical experience at first-hand in actually fighting fire, in discipline and in care of equipment. Towns finding that they cannot have assistance, by reason of odd-size couplings, are ordering all new standard equipment and are, of course, changing their hydrants to con-

form to the standard code. The value of the city and interurban co-operative, wheel-within-a-wheel idea is that in many cases the town or rural equipment would master the fire; but if it could not, the next nearest large place could rush the proper paraphernalia to the scene, either over good roads or by special train, either steam or electric. The idea of interurban and rural protection is about to take another leap forward, and the plan is this: Ohio and many other states are spiderwebbed with trolley lines. Suitable tank cars, carrying chemical equipment, pumps and 1,000 or more feet of hose could be held in reserve at terminal points and rushed, day or night, to the nearest point to a fire. In a fire a second lost may make for

## POINTERS ON HOME BUILDING

Comprehensive Study of Various Designs Will Be Found Helpful to Prospective Home Owners.

The collecting of clippings from the real-estate section of newspapers and put your head in your hands, and magazines is a practice recommended think. Many strange things are by architects for persons contemplating happening. Unprecedented conditions building a home. The prospective abound. Those who have carefully home builder can obtain many valustudied the world situation tell us that able pointers as to the relative style we may have to face widespread world of house which he prefers and is able want if we are not forethoughted and to compare the advantages of different forehanded. With millions of men designs. He is then able to explain to turned from their usual occupation of the architect what he wants and the architect can draw up plans in accord-

When saving clippings the client is apt to accumulate a lot of irreconcila-ble details which he wants in his house, but the architect can adapt the principles desired to better effect if he knows what styles and designs are in the owner's mind. The clipping habit is usually acquired some time before the time to build and in the meanwhile the selective process is continuing. By the time the owner is financially ready to build he has made up his mind as to the details he would like to have and the things he would rather do

without. The illustrations in newspapers and architectural magazines are valuable in determining the style of house desired, while the homebuilders' sections contain many suggestions of use to possible builders. The saving of these illustrations and suggestions will enable one to get a good idea of what other builders are doing and keep in touch with recent developments of in-

### Can Overcome Camouflage.

An American physicist believes that the advantages of camouflage-or at least certain kinds of camouflagecan be overcome by an opposing army by providing its airmen and other scouts with colored glasses or screens of contrasting colors to use with field glasses, states Popular Mechanics Magazine. When the colors of these screen are properly selected uniforms and other objects may be made to appear in contrast, instead of in harmony, with their surroundings, he claims. Camouflage as practiced in many cases is accomplished largely by the use of paint, objects being given shades that blend with the landscape. In spite of certain difficulties that would arise, it is believed that such efforts at concealment could be rendered quite ineffectual by the means

## Win the War by Preparing the Land Sowing the Seed and Producing Bigger Crops

Work in Joint Effort the Soil of the United States and Canada CO-OPERATIVE FARMING IN MAN POWER NECESSARY

TO WIN THE BATTLE FOR LIBERTY The Food Controllers of the United States and Canada are asking for greater food production. Scarcely 100,000,000 bushels of wheat are available to be sent to the allies overseas before the crop harvest. Upon the efforts of the United States and Canada rests the burden of supply.

Every Available Tillable Acre Must Contribute; Every Available Farmer and Farm Hand Must Assist

Western Canada has an enormous acreage to be seeded, but man power is short, and an appeal to the United States allies is for more men for seeding operation.

Canada's Wheat Production Last Year was 225,000,000 Bushels; the Demand From Canada Alone for 1918 is 400,000,000 Bushels

To secure this she must have assistance. She has the land but needs the men. The Government of the United States wants every man who came effectively help, to do farm work this year. It wants the land in the United States developed first of course; but it also wants to help Canada. Whenever we find a man we can spare to Canada's fields after ours are supplied. we want to direct him there.

Apply to our Employment Service, and we will tell you where you can best serve the combined interests.

Western Canada's help will be required not later than May 5th. Wages to competent help, \$50.00 a month and up, board and lodging.

Those who respond to this appeal will get a warm welcome, good wages, good board and find comfortable homes. They will get a rate of one cent a mile from Canadian boundary points to destination and return.

For particulars as to routes and places where employment may be had apply to: U. S. EMPLOYMENT SERVICE, DEPARTMENT OF LABOR
