WE think it is only a question of a few days-hours perhaps-when the United States will recognize the Cuban Insurgents. We have been waiting to change the brand of our tobacco for some time.

THE Republican City Campaign Committee of Philadelphia organ ized Jan. 20 by re-electing Samuel M. Clement chairman. The vote was twenty-three for the administration forces and ten for the Quay men.

Carbon County Republicans elected a chairman of the county committee on Monday. The contest was between George M. Davies, administration and David G. Watkins. Quay. The vote stood on first ballot: Davies 44, Watkins 33.

Ir has been decided by the committee appointed to determine the question, that Lord Dunraven's charges that the Defender's ballast was tampered with, and that she received an extra amount of about 14 tons prior to sailing the regatta, were all based on sailors' yarns. The whole matter places the noble lord in a very unenviable plight.

ABOUT THRILLING TALES.

We always feel grateful to the Port Jervis scribes when we read the thrilling tales sent from that place over the wires to the Metropolitan press concerning bears, snakes, Rip Van Winkles and other pleasant things they say Pike county abounds in. This advertises us as a prosperous, civilized, pleasant community, encourages people, particularly timid and nervous persons seeking some Acadia retreat to flock here in great numbers. It also enables the veracious scribe to turn an honest penny. There have been a number of well authenticated bear and snake stories reported from this county, all told by some notorious har from New York state. The Rip Van Winkle story was written by a celebrated writer on mental phenomenon who is generally first attacked, and who is a chronic sufferer from writer's cramp of the brain.

Now while it pleases us to gain such enviable and cheap notoriety, we are not so selfish as to envy our neighboring town when she gets a dose of the same medicine. It is agreeable to take and can be easily swallowed without sugar conting.

Here in Pike the bears, snakes and other pets of that description are

perly classed in the animal and rep tile kingdoms; over in Port Jervis according to the Sun they belong to the human species. An article in published, says " in Port Jervis no one loses a chance to jump on an actor or an actress." (Tigers and cats usually take their prey in this man Milford, Pike county, Pennsylvania, ner.) Now let the ambitious young paragraphers, begin like Charity, right at home. "It must have suggested itself to you, as it no doubt has to the president, that this commission thus authorized to ascertain and report the boundary line between two foreign nations bears only a remote resemblance to those tribunals of an international character, of which we have had several examples in the past. They were constituted by or with the consent of the constituted by or with the consent of the disputants themselves and were authorized by the parties immediately concerned to pronounce a final judgment. The quositions at issue were presented by the advocates of the various interests, upon whose diligence and skill the tribunal might safely rely for all the data and the arguments essential to the formation of an in-telligent judgment. Their functions were therefore confined to the exercise of judicial powers, and they might fairly expect to reach a result satisfactory to their own consciences, while it commanded the respect of those whose interests were direct

WASHINGTON, Jan. 17.—The Democratic national convention will be held at the city of Chicago on July 7. That was the decision reached by the national Demoeratic committee after an interesting and at times exciting session, which continued until 11 o'clock last night.

Weyler's Bloody Record. WASHINGTON, Jan. 20.-The annous ment of the appointment of General Va leriano Weyler as civil captain general of Cuba was received at Cuban headquarters here as confirmatory of the view they had already expressed upon the news of Cam-pos' retirement, that there has been a radi-cal change in the policy of the Spanish cabinet, and that henceforth there is to be a reign of blood and terror in Cuba. The change in the cabinet itself, in the retire-ment of the Duke of Tetuan and the suc-

cession of Sener Eibuayer as minister of foreign affairs, is regarded as still further confirmatory of this fact. General Weyler is a veteran soldier and has had his own experience in revolutions for be followed the fortunes of the Spanisl army in Cuba for years during the last revolution, with the rank of colonel, and carned for himself a dreadful reputation as a man of blood and iron.

Moreover, the Cuban leaders here hint at acts of cruelty to women and defense-less prisoners on his part in the past in a fashion that augurs ill for the robels who come within his power this time, and they predict that he will soon become involved in trouble with the United States government as the result of the ill treatment of American citizens who may be unfortu-nate enough to fall under suspicion. General Weyler quitted Cuba soon after the suppression of the last rebellion and has since dwelt in Spain, helding the important command of captain general of the
