If the evils of the "growler" business, and " half pint " practices, can be prevented by the court imposing a restriction that no license shall confer the power on its holder to sell liquor or beer in any quantity to be drunk off the premises, but that every one must stand up to the bar and drink there, it will go a long ways in preventing much of the evil which now arises from the abuse of liquor. We hope the Supreme Court will affirm the position taken by Judge Hare of Philadelphia.

The appointment of a minister to the Transvani would not, it is said, signify that the United States government is dis-posed to commit itself to a polley of interering in the internal affairs of the Trans vast, as is desired by the American and other foreign residents in the country. The functions of a minister would be limited to seeing that our citizens are seeing in the enjoyment of life and property and are not discriminated against.
