His friends claimed upon his reprewe them. To some who doubted, the pastur said he would show the papers be-fore going to another charge, but he did not. Last week papers were received from him, by one of his friends, who peddled em around and showing them as Demwho at once gave out that the great point was settled, that the Pastor did have his papers as he had claimed, because they had seen them with their own eyes this time, and not the Pastor's as before. But the gentleman who had charged that the Pastor was an alien and not a citizen, early in the controversy, knew that it could not be possible for he did not have them last fall, and no opportunity had been offered by the court of naturalization since that time. Being therefore interested in know-ing the truth he asked to see the so called naturalization papers. As expected it was found to be only a declaration of his intensome future time. Probably when the naturalization court sgain sits previous to the fall election, and notice of which is always given in the county papers as everyone well knows. Since this exposure of Pastor Demings duplicity it has come to light that two of his friends who claimed to have great faith in all his statements went to Newton months ago to see if there was any record that he had his papers. They found nothing but the evidence that they had been made fools of. They kept their disappointment a profound secret and the matter had not become generaly known for some time past, is skilful also as until very recently. If these men were honest ceachers after truth why should they seek to conceal the fact that the Pashe presented to W. & G. Mitchell tor had deceived his friends, and themselves as well? What measure of man is it who will lie to and deceive his friends and J. B.
