Under the White Banner.

This was the first result of this remark-able convenitor, which scenes ready to esc-rince all else that the white banner of slifor may float above the party as its emsign and rallying cry. The convention itself was a most inspiring sight. Never before alnee the present system of national con-ventions was inaugurated by the old "na-tional Republican" party in Haitimore in 1881 has a convention met in such a espa-cious and admirably adapted structure. On the north side, where the platform and the press benches are situated, the galleries rise one above the other from the floor, while in front from all sides sheer of the railed inclosure where the delogates sit. each state, marked by the neatest of staffs, slope away the wilderness of seats in gen-tle terraces to the most remote limits of

The hands of the big clock opposite the platform cannot be discarried, yet the acoustic properties of the building are so period that every word could be distinct-

ly heard. The decorrations are simple but effective. From the lofty girdors which hold up the arched roof flutter gay trauplogs. The galaxies in front are entwined with ua-tional colors, while at regular intervals large erayon partrals of the patron saints of the party—Jefferson, Jackson and othof the party-Jefferson, Jackson and oth-ers-Jook down upon the successors to their faith. A large portrait of Mr. Cleve-land was off to one side, the only one dis-played of a living Democrat. With the vast space illied, almost to the outermost walls, with a forest of people, an unusual-ly large number of whom were ladles, and the brave flags of enthusiasts whirling in air and breaking like white maps over a storm swept sea, the scane was a brilliant one.
