Correspondence.

Correspondents are particularly requested to send in all news intended for publication not later than Wednesday in each week to insure insertion.

MONTAGUE.

Special Correspondence to the Press. MONTAGUE, July 4.—Montague after the Fourth of July: How do you feel? Did you enjoy yourself? And where did you celebrate? Mrs. S. T. Carswell had the misfortune to fall the other day fracturing a rib. Lost, strayed, stolen or run away, the work girl of Mrs. Dr. Bradley Bystrom. Sheriff Peter Gundersman, of Newton, and A. Dillston, of Branchville, made Montague a short call Monday.

Mr. and Mrs. Alfred Drink of Bolton Beach, Mr. Thos. Perry and daughter, of Tri-States, and Mr. Albert Stoll and son, Port Jervis, were callers in this town last week.

I. A. R. of this town is said to be a candidate for sheriff this fall.

Your versatile correspondent of Layton in last week's Press gave a list of the teachers employed by the Sandyston Board of Education. I think the Montague board could take a lesson by their action to cut down and not increase expenses.

QUICKTOWN.

Special Correspondence to the Press. QUICKTOWN, July 7.—July is coming in hot, and oats and potatoes are now looking fine.

Most any fool has read of "Doctor" Hanks spoken of in the Milford Dispatch of the 28th ult. But who is Dr. "Hahn"? But perhaps some of the staff of editors of the paper could enlighten us?

Orange, N. J., has been granted the degrees of A. M., Ph. D. A farmer of this section wrote to the Pennsylvania experiment station in regards to the apple twig blight of this and Sussex counties and received the following reply:

STATE COLLEGE, Centre Co., Pa., June 30, 1896. DEAR SIR:—Yours of the 18th is at hand. The apple twig blight, which is probably the trouble with your trees, is more or less prevalent every year. I have noticed it here this season, but only on occasional trees. It is much like the blight of the pear, and like it caused by minute bacteria, but differs from it very materially in that short tips only are affected, and not the larger branches or the trunk. Hence a tree may not only survive the attacks, but may develop its fruit without much loss. A similar affection is much more severe on the quince where large branches are involved and many more of them, so that the trees often look as though scorched by a fire. And yet they manage to make a good yearly growth and develop a fair quantity of fruit. Theoretically spraying with Bordeaux mixture should be of some service, but in the case of the apple and during this time of the year I think it would be of no avail. I believe you will find that your trees are only temporarily injured, but shall be glad to look the matter over again if find my prophecy incorrect.

Very truly yours,
W. A. BURCHFIELD.

MATAMORAS. (Special Correspondence to the Press.) MATAMORAS, July 8.—The Matamoras boys have lately played two games of ball with the following scores: Matamoras with the colored boys of Port Jervis 40 to 8 Matamoras with the 4th ward boys of Port Jervis 9 to 15.

July 2nd Floyd Rosenrance lost a bay mare. She was a fine animal.

Lewis Price of Carbondale, Pa., who spent the Fourth with friends in town, returned Monday morning the 6th.

John and Frank Whysall former Matamoras boys also spent the Fourth in town visiting their mother.

Wm. Billman of Meriden, Conn., is making his parents a two weeks visit.

Frank Heath one of our genial young barbers had a severe hemorrhage of the lungs last Saturday.

Two dinners were served to the public Fourth of July. One was held in the Epworth Chapel, from which about \$40 was cleared. The other in Mrs. Frank Oreo's brick building, by the ladies of the Evangelical church, from which they cleared about \$20. Mrs. Oreo very kindly gave them the use of the rooms gratuitously.

The ladies of Matamoras can get up a good dinner which always goes to the right spot.

A. F. Rose closed his shoe shop on Pennsylvania Avenue, July 8th. He goes to Easton, Pa., to take charge of a shoe factory at that place.

Geo. Sayre recently purchased of Jno. T. Hoyt a fine mastiff.

Mrs. Peter Jeffries lies dangerously ill at her home. Monday three doctors were in consultation at her bed side. She is improving to-day.

Mr. and Mrs. Ed. Fisher spent the 4th with the latter's father, Mr. Evi Brink at his home, Tuttle's Corner, N. J.

Ed. Clauson of Elmira Bridge Works is making a 10 days visit at his home.

Wm. Crissman and wife of Elmira are also visiting Mrs. Crissman's parents, Mrs. Watson Clauser.

Letters have been received by friends in town from Wm. Coleman who writes from River Station, Los Angeles, California his future home. He enjoys the best of health and is revelling in all kinds of choice vegetables, and oranges at 5 cents a dozen. Who wouldn't like to go to California?

Sheriff Courtright is erecting a fine new residence on Main street. This is one of several new houses in course of construction.

Aaron Courtright our genial friend has been seen on the streets riding behind his stepper in a brand new sulky.

Rev. Mr. Wegand will preach a sermon on the coming Sunday night at the Evangelical church to the American Legion of Honor, No. 40. The Society will meet at the hall 7 o'clock promptly and march in a body to the church. We expect to see every member in attendance.

GREELEY. (Special Correspondence to the Press.) GREELEY, July 7.—Mrs. Bowen and family of Cherry Ridge, Wayne county drove to this place on Friday last to spend the Fourth with the former's aunt, Mrs. Kirby of this place they returned Sunday.

Seventeen city boarders came to the Synagogue house on Saturday, part of them returned Sunday to the city, perhaps they did not like the wilds of little Pike so well as expected.

Mrs. I. B. Rosenrance visited her sister

THE RIGHTS OF THE BOARD OF HEALTH. Judge Albright, of Lehigh county has just decided that when a Board of Health confines or isolates a family wherein a contagious disease exists, the municipality is responsible and must supply the quartered family and pay for the provisions. The board having the police power delegated by the State, it has an undoubted right to isolate and confine persons because of the existence of contagious diseases. Humanity and preservation of life are the basis of such right. The same grounds forbid that those who for the benefit of their neighbors are detained in their dwellings and prevented from procuring food and other things necessary to sustain life shall be permitted to furnish.

"It can be laid down as a rule that, in this age and in this land, the right to confine a human being imposes the duty of supplying him with necessary food while deprived of his liberty. There being no express power to pay a claim of this nature, it was the part of prudence of the city authorities to decline to approve an expenditure of this kind. It was a proper case to submit for judicial decision."

A Marriage Wager. A man recently in New York laid a wager that he would woo, win, and marry a young lady whom, with his companions he had just seen arriving at the hotel where he was living within an hour. There is nothing in the American marriage law to prevent this dispatch. He introduced himself to the damsel, she smiled upon his suit, and a minister was called in, and they were married within an hour. The wager, of no inconsiderable amount, was handed over to the bridegroom, who left with his bride the following day. It was shortly afterwards discovered that the couple had long been man and wife, and that they had been traveling about playing the same trick at various hotels.

New Coal Cars For the Erie. The longest train ever run over the Michigan Central Railway passed over it Monday, May 25th. It was composed of new coal cars for the Erie railway and there were 121 of them in the train. Each car is thirty-eight feet in length from drawhead to drawhead and the total length of the train, including the engine, which is sixty-two feet long, was 4,660 feet long, or only 320 feet less than a mile.—Exchange.

A New Coal Mine. Scranton parties have leased several tracts of land in Hamilton township, Monroe county on which they expect to mine coal. The agreement is to pay a royalty of ten cents per long ton on all coal mined, and to pay for at least 3000 tons per annum. The lessees will begin the erection of machinery and make all necessary preparations to commence mining operations at once.

A Youthful Argument. "Ah, wot's de matter wid you?" "Ah, wot's de matter wid you?" "I'll show you wot's de matter wid me!" "Yes, you wot!" "Well, I will!" "Nit!" "Wot's dat?" "You heard wot I said." "Who did?" "You." "Ah, wot you give us?" "Say, d' you wante fight?" "Dat's all right." "You dasn't!" "Yes, you!" "Oh, come off." "Say, don't you say dat again." "Who'd stop me?" "I would!" "Yes!" "Yes, me!" "Choose it, cully! Here comes de cops!"—New York World.
