

THE TEACHERS' WORLD.

All teachers and friends of education are cordially invited to contribute whatever may be helpful or suggestive to others in this line of work.

HISTORY.

SOMETHING ORIGINAL. TOWN HISTORY AND GEOGRAPHY.

Young people generally know more about Africa or Australia than they need know and not enough about their own country especially about their immediate neighborhood.

Below is an outline or skeleton, taken from "Profit and Play" which will be a guide.

Name. First settlers. Date of settlement. Nationality. Reason for settling.

Other manufactures. Stage lines. Turnpikes. First railroad built into town.

ON HAND-WRITING. Teachers of penmanship all think that "copperplate writing," the special hand of writing masters and bank clerks, is good writing.

A TEACHER'S SOLOLOGY. To teach or not to teach, that is the question.

Whether it were better for a man to suffer. The tricks and mischiefs of tormenting pupils. Or to take a pen against his daily troubles.

The dreary round of his knowledge sells. By sample. Perchance to preach or break. The insensible rock or crush the rude clay.

When he has shuffled off this coil pedantic. Must give him pause, there's the respect. That makes his calamities of so long life.

The brightening of the eye, the steady growth. Of intellectual power, the controlling spirit.

Which guides the soul immortal checks the hand. And makes him rather hold those goods he has.

THOUGHT GETTING. "Lessen your denominator."

An epigram is a brief pointed saying, always striking, and often both witty and wise.

The epigram given above is by Emerson, one of the American epigrammatists.

pupil is then taught to make lines in a certain direction, and to copy characters so large that they have no resemblance to writing at all.

We believe that the whole of this method is a mistake—that there is no single system of mechanic for writing, and that a child belonging to the educated classes would be taught much better and more easily.

SPAIN HAS NO ALLIES.

HER OVERTURES TO EUROPE FOR AID WERE ALL REJECTED.

The Recognition That Affairs in Cuba Have Reached a Crisis—Making a Desperate Effort to Save the Possibilities of the Antilles. De Loma in Disfavor.

New York, Nov. 18.—Don Fernando Rodriguez, the Journal's Madrid correspondent, cables the following: The phenomenal success of the new Spanish fleet, which has been in the sea since the Cuban war broke out, has not been such a white heat.

The language of the press is so trenchant and resolute that it is clear every day that the country is approaching—may, already have approached—the great crisis in its destinies.

Much has happened during the progress of the American election campaign. It was in August that the board of directors drew up a memorandum to lay before the European powers, giving a full account of the Cuban question and the entire relations between Spain and the United States.

It is understood that Maceo and Gomez are trying to effect a junction in the district of Remedios, which means a direct assault upon the troops and their way through. Whatever happens must be to the advantage of the insurgents.

NO TARIFF THIS YEAR.

SENATOR ALDRICH OF RHODE ISLAND GIVES HIS VIEWS.

Why Neither Tariff Nor Currency Bills Will Pass Congress This Winter—Says That Revenue is the All Important Consideration.

PROVIDENCE, Nov. 18.—Senator Nelson W. Aldrich, who is regarded as one of the highest Republican authorities on the tariff in the United States senate, furnishes a signed statement to a New York paper in which he says:

In my judgment it will hardly be possible to secure the adoption of any satisfactory financial or revenue legislation at the approaching second session of the Fifty-fourth congress. My reasons are these:

First—With a free silver majority in the senate it must be evident that no revenue bill or to any revenue legislation that would have the approval of the 88 Republican senators.

Second—In the senate of 89 members there are 59 Democrats, 6 Populists and the 6 silver senators who supported Mr. Bryan—or 31 senators in all who have been, and are likely to be, with a very few possible exceptions, opposed to the passage of any revenue legislation at this session.

WASHINGTON, Nov. 18.—The near approach of the opening of the second session of the Fifty-fourth congress has given rise to the report here that Colonel A. Du Pont will renew his contest for a seat in the senate as a representative of Delaware.
