POSTAGE STAMPS.

Every part of postage stamp making is done by hand. The designs are engraved on steel, 200 stamps on a single plate. These plates are inked by two men, and then printed by a girl and a man, on a large hand press. They are dried as fast as printed and then gunmed with a starch paste made from potatoes. The paste is dried by placing the sheets in a steam fanning machine and then the stamps are subjected to a pressure of 2,000 tons in a hydraulic press. Next, the sheets are cut so that each one contains 100 stamps, after which the paper between the stamps is perforated, and after being pressed the sheets are filed away. If a single stamp is injured, the whole sheet is burned.—Educational Gazette. These plates are luked by two men, and

THE TARIFF DEBATE.

THE SENATE NOW TAKES UP THE AMENDED DINGLEY BILL

Chairman Aidrick States the Republican Position-Mr. Vest Outlines the Demoeratic Opposition - Mr. Cannon Wives the Silveriter Views.

big value at 45 cents, this sale and the tariff leaders of the house.

The Republican side of the floor showed an almost solid representation, there being but three or four vacant seats. The Democrats also attended in force, and the scattered seats of the Populie's were occupied, with but one exception. Mr. Dingley, chairman of the ways and Mr. Dingley, chairman of the ways and means committee and author of the house bill, took a seal immediately beside Mr. Aldrich and listened attentively. Other Republican members of the ways and means committee and Representative Simpson of the Populist contingent occupied the roar lounges. Speaker Reed was not present.

Mr. Aldrich spoke for almost an hour and a quarter, adopting an easy conversational style. His speech was the official utterance of the finance committee and in a sense the Republican side

Vest States Democratic Position. Mr. Vest of Missouri, one of the Democratic members of the finance committee, followed with a statement in opposition to the bill. He spoke of the futility of piling up taxes on an overburdened people when there was a balance of \$129,000,000 in the treasury. Fig. 122,000.00 in the treasury.

He criticised the schedules in detail, declaring that some of them were designed to be prohibitive. He severely attacked the increase in the lead duty, declaring it was for the benefit of the "cormorants" of monopoly and against the people.

mr. Cannon of Utah, a Silver Repub-lean, closed the debate for the day by irging that the protection should be so

distributed as to aid the farmer.

Mr. Pettigrew presented the amendment, of which he has heretofore given ment, of which he has heretotore given notice, that when articles are manufactured by a trust articles of such character imported from abroad shall he free of duty. He said he would ask its consideration immediately after the committee amendments.

Mr. Mallory, the new senator from Florida, was sworn in and took his

Amendment Offered by Silverites.

Senator Cannon of Utah offered the following as an amendment to the tariff bill: "And from and after 60 days from the passage of this act there shall be paid out of any moneys in the treasury not otherwise appropriated to any experter of wheat or wheat flour, rye or rye flour, corn, ground or unground, cotton, hops or tohacco produced wholly in the United States and exported by sea from any port in the United States to any port of other country the following bounty by way of an equalization to agriculture of the benefits of this act to encourage the industries of the United States—to wit, 10 cents per bushel on wheat four, 10 cents per bushel on rye, 50 cents per burnel on corn, ground; 1 cent per pound on cotton, 2 cents per pound on hops, 2 cents per pound on hops, 2 cents per pound on tobacco—and all shall be made upon negotiable vouchers issued by the collector of customs at the port of clearance upon presentation at the treasury or any subtreasury of the United States, and the secretary Amendment Offered by Silverites. tion at the treasury or any subtreasury of the United States, and the secretary of the treasury is hereby charged with making and enforcing such regulations as may be necessary for the full pro-tection of the exporters and of the gov-

ernment according to the true intent and meaning of this law."
This amendment is a result of a con-ference of Silver Republicans, Populists and some Democrats and may be said to represent the sentiments of the element in the senate which puts sliver above all other subjects of legislation. Senator Pettigrew offered an amend-ment to the tariff bill providing for the abrogation of the Hawallan reciprocity treaty, as follows:

Past Week's Proceedings. Washington, May 20.—Another stirring debate on Cuba has occurred in the senate. It was of the give and take order, with sharp parliamentary fenc-ing. The main speeches of the day were made by Senators Foraker of Ohio, Can-

non of Utah, Lindsay of Kentucky and Hoar of Massachusetts.

government. Washington, May 22.—The long and exciting debate on the joint resolution recognizing the existence of a state of war in Cuba and declaring that strict neutrality shall be maintained by the United States has passed the senate by the decisive vote of 41 to 14. The announcement of the vote was received with templicous anglesce, which decisive to the control of the announcement of the vote was received with turnshinous appliance, which drew from Benator Hawley an emphatic project against "mob demonstration."

The house adopted without division the resolution appropriating \$50,000 for the relief of distressed American citizens to Cubia.
