EDITORIAL.

TO THE TAXPAYERS.

In a recent issue of the Press we presented some figures showing the present situation of county affairs. We have so far seen no disavowal of their correctness, and may assume that they are a fair statement.

five per cent. to the collector of taxes, two per cent. again to the treasurer for receiving and two per cent. for paying out, nineteen per cent. total to the taxpayers.

The act of assembly relating to assessment says that it shall be the duty of assessors to assess, rate and value all objects of taxation according to the actual value thereof, and at such rates and prices for which the same would separately "bring a fair price."

Assess the value of the property, and then divide by some arbitrary figure as 3, 4, or 5. River flats within a mile of Port Jervis are assessed at \$22.50 per acre, and so they are all the way to Bushkill.

Political Gossip.

Despite the hostility of the 16 to 1 free-contractists, President McKinley's bimetallic commission is still meeting with very favorable reception wherever it goes.

Mr. Bryan's recent announcement that he expects to speak in every county in his own State in the coming campaign leads to the suspicion that his enthusiasm in regard to Ohio is not as great as it was before that State in its convention refused to endorse him for the nomination in 1900.

It is a "low down" thing on the part of the great business firms of the East to have ordered their western representatives to resume the making of loans on farm property at low rates of interest, just as the Pops and "Amateurs" are preparing to make "securities of money" the chief cry of their fall campaign.

The preliminary conventions of gold Democrats which have been held in most of the States in which elections are to take place this fall show a much larger percentage of Democrats lining up with the gold wing of the party than in last fall's campaign, and the leaders of the gold Democracy are greatly encouraged by this fact.

Despite the enormous importations of manufactured goods, the manufacturers of the country are showing an improved business condition. Reports from various sections show a decline in the number of men employed and hours occupied.

A reduction in the tariff on coal by the Wilson bill was followed by a reduction in wages amounting to nearly as much per ton as the reduction of the duty.

No tariff law which has gone up on the statute books within the memory of the present generation has been as cordially approved and endorsed by members of the party opposed to it as is the case with this one.

The Bryan-Alfeged wing of the Populist party is very much disturbed over the result of the Nashville convention, in which 700 representatives of the Populist party declared against future alliances with the Democratic or any other political organizations.

HARRISBURG LETTER.

The Governor's Work of Pruning Appropriation Bills.

FENROSE-HASTINGS QUARREL.

The story of the controversy between the Governor and the Chief Magistrate - A Factional Party War inevitable.

Special Correspondence. Harrisburg, July 20 - The revenue question is still undetermined, but before the end of the week the governor will have settled the matter in his own mind. It was the revenue bill that the present revenue laws and those passed by the last legislature, which are still on the governor's table, are not sufficient to meet the deficiency of over \$1,000,000.

The Fenrose-Hastings Quarrel. Since the adjournment of the legislature this city has been the storm center for some very lively political and other sessions.

Never before in the history of the State has the governor demanded such a thorough investigation of bills. Consideration has been given by the governor and those who have received letters will have to do some hunting after the next few days to get their itemized accounts in shape.

The Mer-monthly Tax Bill. It is not an open question whether the governor will approve or disapprove the mercantile license tax bill. He is disposed to veto it, and if it is approved it will be because the governor thinks the charitable institutions will suffer for lack of money.

Other important bills still on the governor's table are the Simon electric light scheme, requiring municipalities to purchase existing electric light plants before establishing their own.

The Governor has approved the bill creating a state bureau of mining in connection with the department of internal affairs, and also the bill providing that coal shall be weighed as it comes from the mines before screening.

Princeton, N. J. July 15 - In broad daylight a daring attempt was made to rob the drug store owned by Dr. Schwartz. The thief entered the store and attacked the prescription clerk with a knife, demanding money.

San Francisco, July 21 - Twenty-two members of the lost British ship Kinkora, who spent nearly two months on the barren island, have returned to the South Sea. They will be provided for by the British consul until an opportunity occurs for their return to England.

The governor by the legislature have been divided up, and next week the news will be entirely clear. Governor Hastings was compelled to attend the several brigades encampments of the National Guard, and these interested especially with his consideration of the various measures on his table.

The Governor's Investigation. Governor Hastings has caused a investigation by demanding of the chief clerks of the senate and house a detailed itemized statement of the lump sum for salaries of officers and employees of the law bodies.

The sergeant-at-arms of the house has not been requested to furnish itemized statements of his expenses, which are large, because the appropriation bills in which he is interested had a provision inserted by the house requiring him to submit to the auditor general a sworn itemized statement of all expenses.

Never before in the history of the State has the governor demanded such a thorough investigation of bills. Consideration has been given by the governor and those who have received letters will have to do some hunting after the next few days to get their itemized accounts in shape.

When bilious or constive, eat a Cascara, candy cathartic, cure guaranteed, 10c. 25c.

Wanted - An Idea. Who can think of a new device for cleaning shoes?

State College Circular.

To THE EDITOR: - Among the appropriation bills which failed to receive consideration during the session of the Legislature just closed was one providing for the erection of a dairy school building for the Pennsylvania State College.

In order to utilize our limited accommodations to the best advantage we have been compelled to limit the number of students in the Creamery Course to forty.

No examination is required for admission to this course or to the short winter course in agriculture, and any intelligent person, with a good common school education can pursue them to advantage.

Very truly yours, H. P. ARMSBY.
