Of Westmoreland County.
For Auditor General,
MAJOR LEVI G. McCauley,
Of Chester County.
COUNTY TICKET.
For Jury Commissioner,
CHARLES A. GILLET,
Of Lackawanna.

EDITORIAL.

The oaths to be taken by the election officers at the Republican primaries are printed in this issue of the Press, simply as a guide. They should be added to the rules, not as any material part but in order to have uniformity, and that they may be printed and distributed to the election officers throughout the county.

CHARLES A. GILLET nominated by the Republican convention a candidate for Jury Commissioner, is a well-known and highly esteemed citizen of Lackawanna township. He will make a careful competent official, and one creditable to the party. The office while apparently insignificant is one which involves great interests to the citizens of the county, for, upon the manner in which the Jury Commissioners fill the wheel, the care they exercise in the selection of names and in the performance of every duty devolving on them rests to a degree the security of property and the safety of person, because in their hands to a certain extent rests the character of the juries which pass upon these questions. Our nominee will no doubt fill the above requirements in a satisfactory manner.

THE TIME WILL BE UNIFORM.

The County Committee at its meeting to fix the time for holding the late township caucuses, recommended that they be held uniformly Saturday, August 28th. This suggestion was disregarded in two townships, Lehigh and Delaware, and the caucuses were held August 31st. While formerly this might not invalidate the action it yet gave occasion for dissatisfaction and opened a door for those who had public information of the proceedings of the committee to question the motives of those who fixed a different date from that suggested by the County Committee. It is to avoid all such opportunity for contention as to want of sufficient notice of the time of holding the caucuses that the rules recently adopted were in part framed. Under them there is

a uniform date and a precise time fixed, with the means of giving the fullest publicity as to both, and this will remove one great cause for the universal dissatisfaction expressed with the former method of holding caucuses on different dates in the several townships.

THE NEW RULES.

We trust every Republican in the county will carefully read the rules herein presented. They are concise and at the same time as comprehensive as may be necessary for the government of the party machinery. There can be no question in the mind of any delegate who was present at the recent Republican convention of the necessity for rules to govern the conduct of party affairs.

These rules, as will be seen, simply place the power in the hands of the voters. They leave all questions to be decided by them, and also the selection of the persons who will be the nominees of the party. The voice of the people is supreme and when fairly expressed at the polls it should be cheerfully acquiesced in and receive the hearty assent of all. We desire united and harmonious party action. We may differ in our opinion as to men and their qualifications for office but when the people have had a fair opportunity to express by their votes a choice it is the duty of every party man to render cordial support. The provision that the County Committee shall be elected by the voters of the county and not by a packed mass convention will forcibly appeal as it seems to us, to every fair-minded man. The election of a delegate to the State convention by the voters within a short time prior to the meeting of that body, and after the names, and the qualifications of the candidates are fully known, will enable the Republicans of the county to express their preference, and the delegate who goes to represent them will understand the sentiment of his constituents. The party had no rules, it could not act in concert nor make united effort against its common enemy, under the rules, it will as a party, designate the men who are to manage its affairs, and be its standard bearers. Again we invite a careful consideration of the rules as adopted by the convention to the end that wherein they may be fairly objectionable, or whatever is lacking to make them efficient in expressing or carrying out the will of the people may be altered or amended at the adjourned convention.

"My boy came home from school one day with his hand badly lacerated and bleeding, and suffering great pain," says Mr. E. J. Schall, with Meyer Bros' Drug Co., St. Louis, Mo. "I dressed the wound, and applied Chamberlain's Pain Balm freely. All pain ceased and in a remarkably short time it healed without leaving a scar. For wounds, sprains, swellings and rheumatism, I know of no medicine or prescription equal to it. I consider it a household necessity." HARRISBURG LETTER.

The Relations Between the State's Executive Officers.

THERE IS NO SERIOUS BREAK.

Banking Commissioner Gilkeson's Encouraging Report on the Building and Loan Association—Representative Arma Kyrle Victimized.

Harrisburg, Sept. 7.—There are various rumors about what the capital building and loan association is doing. It is reported that the Banking Commissioner Gilkeson has issued a report on the building and loan association, which is very favorable. It is also reported that Representative Arma Kyrle has been victimized by the building and loan association. The Banking Commissioner Gilkeson has issued a report on the building and loan association, which is very favorable. It is also reported that Representative Arma Kyrle has been victimized by the building and loan association.

Relations Extremely Cordial.

There may be strained relations, but there have been strained relations before in official circles and amicable adjustments have followed. Some time ago it was reported that the relations between the governor and Banking Commissioner Gilkeson had been broken, but it was found that the relations were still cordial.

Aspirants For the Governorship.

Republican leaders here are delighted with the action of the governor in appointing Charles W. Stone as aspirant for the governorship. They say that the failure to appoint Stone as aspirant for the governorship is a great disappointment.

A Victimized Sergeant-at-Arms.

Larry Eyre, the sergeant-at-arms of the senate, was victimized by the building and loan association. He was told that he could make a large sum of money by investing in the building and loan association, but he was deceived.

Fled Through a Window.

Frank Campbell, aged 50, who was sentenced to five years in state prison for burglary, escaped from his keeper, and it is believed he has crossed into the Black Mountains. An open window which led from the courtroom to an adjoining room afforded the opportunity which Campbell took advantage of while he was left temporarily in charge of the court by the warden.

Killed a Man by Mistake.

John Tomlinson, a school teacher, became involved in a quarrel with John Taylor in a saloon at this place. He drew a revolver and shot at Taylor. The bullet struck Taylor in the groin. Taylor was so badly wounded that he died.

Killed by a Car.

Joseph Zepke, 5 years old, of East Twenty-second street was run over by a car and killed at First avenue and Twenty-ninth street.

WARNSGOLDSEEKERS

GOVERNMENT OFFICIAL WRITES OF THE PERILS OF PROSPECTORS.

Party of Saint Ste. Marie Citizens Return From Michipicoten, and Every Man Says He Has Made a Strike and Is Fabulously Rich.

Washington, Sept. 8.—The treasury department has made public the following letter, dated Dyer, Aug. 22, received from a government official now in Alaska on the way to his appointment, stating at the same time that the writer whose name is withheld, had been in years in the service and was thoroughly reliable.

The Skagway trail is the most largely used overland route, though by no means the best, to the Klondike. Mr. Ivey, collector of customs for Alaska, informs me that there are now between 1,000 and 2,000 persons on the trail. The number of passengers will average 300 to each vessel, making 3,000 more people who will attempt to go in this fall.

I have talked with some of the most experienced traders and miners in this vicinity, and they are unanimous in the prediction that not over 20 per cent of this vast number will get through to Dawson before winter sets in. The other 80 per cent will be caught on the trail, and those who survive and get back to tide water will have to enter at Skagway or return south.

If the trail continues two weeks longer, hundreds will inevitably perish on the trail, which is extremely dangerous after Oct. 1.

The postmaster and Indian trader at this place, Mr. M. J. Heron, states that more than 1,000 men have gone up the Chilkoot pass during the past 30 days and that 700 of them are still this side of the lake, 34 miles from here.

"I attach the greatest weight to what he says, for the reason that it is to his pecuniary interest to have as many as possible come this way, yet he advises an immediate stoppage of the stampede."

"It is difficult to suggest a way to stop this throng of people, but Mr. Ivey intimates that if the inspection rules of the treasury department were properly enforced, the stampede would be checked, and the number of passengers on the incoming vessels. Nearly every vessel that arrives here brings twice as many passengers as the law allows it to carry, and many of these are condemned craft which have been lifted up for this trade."

"They unanimously agree that while there is a rich gold field there the facts do not justify the present stampede, and they say there is bound to be much suffering and actual starvation."

"Provisions are already scarce and the price of many articles absolutely prohibitory in the case of men of ordinary means."

"The mail facilities are very bad here, as the postoffice department has not given any allowance for the rapid growth of postal business. The postal authorities here are powerless to cope with the mass of mail matter, and I have doubts as to whether this letter will reach the first party of 800 prospectors who returned last night on the yacht Mary Belle. They are all well known citizens and include ex-Mayor Jay Hursley, City Comptroller G. G. Bennett, Circuit Court Stenographer John A. France, Fred Price and others occupying places of prominence in the business world of this city. They left for the gold district last Monday and arrived there on Wednesday afternoon. There was only one returned last night and the party, but soon every member caught on."

The first day out several promising claims were found, and every member secured one. Judging from the samples brought back, they have made a rich strike. The members of the party returned for provisions and the like, but left T. B. Lisle and G. L. Mitchell on the trail to protect their interests. F. G. Ferguson, a retired merchant, who returned with the party, has full descriptions and application for the land. Every man who returned last night already considers himself as fabulously rich. The ex-mayor said that the gold found on Lake Wawa was so rich that it makes one on the ground it is almost impossible to form a definite idea of the immense wealth of the country. He said that quartz showing free gold is obtainable almost everywhere. In many places the particles of gold are as large as a grain of wheat and fairly stick out of the quartz. This quartz is of a free milling variety, and experts say it can be mined profitably where it shows an assay of \$5 a ton.

The mining experts now in the country say that some of the quartz will assay over \$100 to the ton. The quartz surrounding this gold can be pounded up in an ordinary drugist's mortar and quick run out in this way. The mine is added.

"In my opinion the deposits extend over hundreds of thousands of acres. There are an abundance of veins showing free gold and promising indications in all the mountains around Lake Wawa. The men in our party have staked out nearly 1,000 acres, in all of which the quartz veins show plentifully."

Prospectors are not yet numerous in this district, and when we left Saturday morning there were only about 500 men on the ground, but tents were springing up as if by magic, and a city will soon exist in the unexpected country around Lake Wawa."

Assay of Ontario Gold.
Montreal, Sept. 8.—Authorities of McGill university have made examination of specimens of gold brought from the Wawa district, on the northern shore of Lake Superior, and find as much as \$24.00 per ton.

Burglars Made a Good Bank.
Toronto, Sept. 7.—The residence of Assistant Secretary of State Alexander H. Rice was entered by burglars and robbed of \$500 in cash and about \$300 worth of jewelry and other property.
